Thank you for the
To Town zoning Board of Appeals

I've been in violation of zoning
I would prefer building a garage, but
did not answer that question
sufficiently

My lot dimensions and have been
closing to since 1985. I would
remove the shed and next space of
a multi level repair building
then cleaning and repairing
merchandise. This process tends
to creep into every room of my
small house.

After each show I need to
store my large tent as well as
tables & benches used for display.
I have enclosed some photos
taken of my garage after a show
in August. It still looks like
the old. It's hard to work on
pieces when there is no sufficient
work space.

The building will also be used
for tools, equipment, garden
tools, etc.

I hope this meets your
requirements.
Thank you for your
consideration.
Debbie Carver
