

NEW YORK STATE – ARE YOU CONNECTED?

Are you on the federal broadband map? We need every New Yorker to participate in the national broadband census to confirm the accuracy of their broadband service—millions of dollars in federal funding are at stake. New York needs to ensure YOU have the most affordable and accessible internet.

It's easy! All it takes is checking for your home or business address on the **Federal Communications Commission (FCC) national broadband map**.

Your location, and internet services offered at that location, will be displayed. If the information shown on the map is incorrect, we need to let the FCC know by submitting a challenge in order to update the map.

An accurate map will help New York State get its fair share of federal funding for broadband internet and it will mean better access to broadband for all New Yorkers.

Thank you for helping to keep ALL New Yorkers connected!

HOW TO CHECK FOR YOUR ADDRESS ON THE FCC NATIONAL BROADBAND MAP:

- **DEADLINE: January 13, 2023**
- Visit broadbandmap.fcc.gov – from your home, phone, or local library
- Enter your address
- Need more help? Check out this step-by-step video: <https://youtu.be/fiFoxZKywv4>
