Highway: Highway Superintendent Reed said that they had a setback on the road patching. Beavers got into the cross culvert on Delevan Road. Culvert pipe needed to be replaced after failure. Still need to put seeding down and we will be done with that project. We have started the second round of mowing. Mower broke as we got going and we are waiting on parts for it.

Public Safety: Council Member Grant stated there was a town officers meeting last night. There will be a training on active shooters at the Duaneburg High School this Saturday and Sunday. Various local departments have Halloween events going on next month. October starts the breakfasts at Delanson. DVAC is hoping to get there turkeys dinners going again.

Parks: Supervisor Wenzel reported that the gutters were installed at Van Patten Park. The material was donated by Erie Materials and the Gutterguy donated his time and labor to install them. We are still working on finding the right water tank to be installed at Veterans Park at the point to water the flowers. We thank Deb and John Peters for all their hard work to make Veteran's Point look beautiful.

Sewer District #1, 2 & 3: Council Member Lucks reported that we are still working on getting quotes for a plow for the sewer truck. We have a resolution in tonight's business meeting to sign the contract with PrimeAE to do the annual inspections.

Technology: Council Member Santulli wanted to commend our clerk who has jumped in to take over the website and everything is going well. Thank you, Jen. There was a Broadband Committee meeting last week. Some of the homes were knocked off the unserved list by Spectrum. Still waiting on a contract for the 32 remaining houses.

Other: Discussion on DVAC 2024 Budget

Chairman Bob Cuttita of DVAC read a letter (see attached).

Supervisor Wenzel spoke on when in 2021 when we first went to hybrid 6am-6pm there were staff from a 3rd party vendor available Monday through Friday for 60 hours per week of paid services. Last year when we prepared the 2023 budget, we made a 70% increase based on DVAC's request, so we added 42 hours bringing it to 102 hours. The proposal at this time is for 24/7, is for 168 hours, which is a 65% increase. So, the resident are going to want to know how much is this going to cost me. I spoke to the assessor and for a \$200,000 increase he advised us that the average assessed value of a home in the town is \$60,000. So if your home has a \$60,000 assessed value the increase for 2024 would be \$66/year if we were to accept this proposal.

Council Member Grant stated that the reason she asks the questions that she does is that being on this side is very different than being on that side. So now that I have seen how much everything costs the town, any time there are large sums of money I want to make sure that we are spending taxpayers' money as efficiently and appropriately as possible. I appreciate the fact that we are working towards 24/7 coverage. The only question I have is has there been any research done to see if there are any other entities that we could take on that would be less expensive but still efficient rather than doing it in house? Not that I think you doing it in house is a bad thing, just which is the better way to go financial.

Chairman Cuttita spoke on how last year they tried to work with REMS and they came back to us with a flat rate fee of \$500,000 just for staffing which is what made us cut ties. I think we can do it cheaper and better. I think this proposal that I gave you shows that we can. We are going after every penny that we can.

Eric Unser spoke on the problems they had with Motor Vehicle Accidents in the past and recouping the bills for those. They are now taking pictures of registrations and police reports to help with the no fault insurance claims.

Tim Hannigan spoke on DVAC's budget request and it being comparable and in line with other towns that are similar to ours.

Council Member Santulli asked with it is getting harder to get volunteers because of the requirements, has anyone looked into getting ahold of the department of health or the legislature for reimbursement on the costs of the trainings they have imposed.

Peter Brodie spoke on how the other local agencies are understaffed and if one EMT calls in they have to call in another that will be on overtime and have to pay them at a higher rate.

Chairman Cuttita spoke on other things they are doing to help with volunteers and other aspects of their budget. Asked a question on the insurance requirements. Anything the town board can do to help them save money they will be grateful for.

Tom Collins of Weast Road stated that we pay enough for fire protection in this town I'm not sure why we are arguing over the amount of money that we are talking about that these guys need to provide the same time of complete protection. It doesn't make sense in his opinion.

David Ableman of South Shore told his experience with having to call DVAC and his support of them.

Karen DeFreest of Levey Road told her experience with having to call DVAC and her support of them.

Carol Hallenbeck of Sheldon Road told of her experience with family having to call DVAC and her support of them.

DAC Historical Call Stats

The DAC Board conducted a review of the past three years of DAC call operations. This information was provided based on a request to the county 911 center and Corps records.

Year	Number of Calls	Number of missed Calls	Percentage missed
2020	300	53	17.6%
2021	372	61	16%
2022	415	86	20%
2023	227	7	3%
as of 2 nd quarter numbers		excluding simultaneous calls	1.7%

Calls missed total over a 2.8-year period from 2020 – 2022 185 missed calls

Calls missed since Duanesburg Ambulance hired staff 2023 7 of which 3 were simultaneous calls.

As demonstrated by the above chart the introduction of paid staff supplemented by volunteers and not the other way around has exponentially reduced the missed call. This has also increased the speed at which calls are answered. DAC is committed to providing the best care at the lowest cost to the residents of Duanesburg.

If the requested amount of money from the town was equally distributed among the 3,526 properties in the town the cost per taxable property would be \$170.00 for the 2024 budget year. This would provide a 24 X 7 Ambulance Services for the entire town of Duanesburg.

Currently it costs \$110.00 per taxable property for two shifts not including Saturday night or the entire day on Sunday which is currently being covered by Volunteers when possible and available.

In the 2024 budget year, when possible, DAC will save in staffing costs when available by using volunteers and refund the town those costs in the following year.

New / continuing opportunities for collaboration

- 2023 DAC worked with State representatives and received a \$10,000.00 grant which we removed from the amount requested. This is for specialty equipment needed to respond to major emergencies. DAC will continue to pursue grants.
- Working quarterly with our Fire Department partners on Quality Assurance with our Medical Director
- Continue Fundraising activities that provide much needed services to the residents and allows DAC to stay financially secure.
- Conduct town training for all EMT's in the town at DAC
- Monthly meetings with Corner Stone to ensure there are no missed billings and reduce the time of payment to DAC – See next page Accounts receivable.
- Maximizing QuickBooks features
- Continuing finance quarterly meetings
- Quarterly meeting with Medical Leadership and Board members
- Introduction of an Employee Handbook 2024
- Standardization of products and services throughout the Corps to save money.
- Provide the community with an opportunity to visit DAC monthly through the newly formed social committee.
- Future expansion of the BUNK Room now that we have 24 x 7 staff. Needs to be upgraded.

Ambulance District Formation

Duanesburg Ambulance is excited to create an Ambulance District for the town and work with newly formed appointed commissioners. This district will create the most transparent and efficient medical and ambulance services throughout Schenectady County. DAC feels there is an opportunity to save money and create an unparalleled working relationship with all the town's emergency services through this district.

When appointing the commissioners DAC is requesting commissioners come from the following areas of expertise:

- A businessperson in the town of Duanesburg
- A person who is or was in town government.
- A person with a medical background, (ie nurse, doctor paramedic etc.)

These people should represent the entire town of Duanesburg and come from various areas of the town.

Duanesburg Ambulance looks forward to working with the town board of Duanesburg and continuing our relationship while we all work to provide the best medical and ambulance care for our residents.

Respectfully Submitted.

DVAC Board

Ladies and Gentlemen of the Town Board of Duanesburg,

I stand before you today as the Chairman of the Duanesburg Ambulance Corps, a dedicated group of individuals committed to providing life-saving care and emergency transportation for our community. Our mission is and has always been to serve and protect the residents of Duanesburg. This mission has been the foundation of DVAC since its inception in 1971. Today I stand before you to inform you that Duanesburg Ambulance has always had and still has an unwavering commitment to this community. However, I am here to address a pressing matter that affects our ability to continue delivering the high-quality service our residents deserve: the need for a budget increase.

Last year we submitted a budget requesting an increase due to the hiring of staff for two of the three shifts and a 12-hour shift on Saturday. At that time Council Women Grant questioned if I was asking for enough money? At that time, I did not have enough statistical data to request any additional funding. A year later I can say Council Women Grant was right I did not ask for enough. For the betterment of this community and our response to emergencies, we have decided to hire staff when volunteers are not available to cover open shifts. Currently I am proud to say Duanesburg Ambulance is operating on a 24-hour 7 day a week Ambulance Service.

Our ambulance corps has been a cornerstone of this community for over 52 plus years, responding to emergencies swiftly and efficiently. We have invested in the latest medical equipment, rigorous training for our personnel, and maintained our staffing, building and ambulances. We have married the volunteer operations with a paid staff and believe we could be a model for the entire state but still, as we face the evolving challenges of the healthcare landscape, and the lack of volunteers, we find ourselves in a financial dilemma.

The cost of medical supplies and equipment, staff, fuel, and insurances rates are skyrocketing. Furthermore, our dedicated EMTs and Emergency Vehicle Operators, who work tirelessly around the clock, deserve fair compensation for their unwavering commitment to public safety. Duanesburg is not the sleepy town on the hill it once was. We've seen an increase in the number of emergency calls, which places additional demands on our resources. Over the past two years as chairman, we have responded to many horrible and horrific calls to include accidents on 890 and rural roads around town, shootings of our state troopers and others that are so bad I don't want to mention them here today.

Since hiring and staffing the Ambulance Corps 24 hours a day 7 days a week I am proud to say that our response times have decreased significantly, our missed call rate went from over 20% down to less than 2% and we are able to respond to other areas of the surrounding community to help our fellow residents.

Our current budget of 2023, though carefully managed, is simply not sufficient to keep up with the staffing demands needed to meet the current needs of our community. This is a situation none of us wants to see, as it directly impacts the safety and well-being of our residents.

I come before you today not to request a budget increase for the sake of growth or new exciting equipment or ambulances but out of necessity. We need the additional requested funds to maintain our equipment, support our staff, and ensure that our ambulances are fully stocked with the lifesaving supplies our community needs and deserves. I believe the Town of Duanesburg is getting a tremendous value for the money being requested. My research has indicated that other rural communities would love to have what we have right here in Duanesburg, a self-staffed, volunteer managed, locally operated ambulance service that is taking care of its own neighbors, friends, families, and visitors to the area.

I understand the importance of fiscal responsibility, not only as the current chairman of Duanesburg Ambulance but as a taxpaying citizen of this town for over the past 38 years. Since I was elected as chairman, I believe I have put in place the people and operations that have carefully managed our finances and kept our equipment and building to where it needs to be. However, the time has come when we must prioritize the safety and well-being of our residents above all else. We are here to serve, to protect, and to save lives, and we need the Towns support to continue doing so successfully.

I ask you to consider our detailed budget request submitted with the utmost care and seriousness. The lives of our neighbors, friends, family members and visitors to our town depend on it. Together, we can ensure that our ambulance corps remains a beacon of hope and a pillar of strength in times of crisis throughout this community.

Thank you for your consideration.

I have with me today our Finance Chairman Eric Unser who has over 40 years of medical billing experience to answer any questions about the budget, our Captain Peter Brodie to answer any questions on medical care and response issues and our attorney Tim Hannigan to answer any questions on a proposed Ambulance District so our town residents know exactly what they are paying for Ambulance services in town. By creating an ambulance district, it will create the most transparent fiscal operations for future board members for both Duanesburg Ambulance and the Town Board.

Again, thank you for your time.

Subject: Questions to be answered for 2023 budget considerations

1. Is there response time differences between the BLS and ALS transports?
2. After all the years as volunteer only, why the sudden escalation in moving from partial paid to full time paid?
3. Wasn't last years changes supposed to be saving the taxpayers money?
How is such a substantial increase in taxpayer subsidy saving money?
4. Would getting ALS certified first be more beneficial? If you aren't sure, why wasn't this researched first?
5. Would going with Lakeview or another provider be less costly?
6. Is DVAC the primary medical response agency for all of the Town of Duquesburg?
7. Why no advance notice prior to this increase request showing up in the budget proposal?
8. Was there a significant increase in donations and revenue recovery that would demonstrate a perceived need?

9. Did you do surveys showing a desire for this expansion?

10. With the move to fully paid, have billings been made to areas where the service has been provided such as the school, little league or special events?

11. What percentage of past and current billings to insurance providers is being recovered?

Please, e-mail your responses prior to the next Town of Duanesburg Budget Workshop. This may be 9/19/2023. It has yet to be scheduled.

A Modification is (1) a written amendment to the Contract signed by both parties, (2) a Change Order, or (3) a Construction Change Directive. ~~Directive, or (4) a written order for a minor change in the Work issued by the Architect.~~ The intent of the Contract Documents is to include all items necessary for the proper execution and completion of the Work by the Contractor. The Contract Documents are complementary, and what is required by one shall be as binding as if required by all; performance by the Contractor shall be required to the extent consistent with the Contract Documents and reasonably inferable from them as being necessary to produce the indicated results.

Unless otherwise set forth, in the event that there are discrepancies among terms, conditions and/or requirements relating to Contractor's performance, the most stringent terms, conditions and/or requirements shall control.

Contractor acknowledges and agrees that the Contract Documents are adequate and sufficient to provide for the completion of the Work, and include all Work, whether or not shown or described, which reasonably may be inferred to be required or useful for the completion of the Work in accordance with all applicable laws, codes, and professional standards. Work includes all labor, materials, equipment and services to complete all specified procedures, repairs and waterproofing, satisfy all governmental conditions including but not limited to obtaining permits, etc., all necessary protection measures for safety and to preserve existing or adjacent Work, together with all attendant cleaning and removal of debris.

§ 7.2 The Contract

The Contract Documents form the Contract for Construction. The Contract represents the entire and integrated agreement between the parties hereto and supersedes prior negotiations, representations, or agreements, either written or oral. The Contract may be amended or modified only by a Modification. The Contract Documents shall not be construed to create a contractual relationship of any kind between any persons or entities other than the Owner and the Contractor. Contractor expressly represents that the Contractor has carefully examined the Contract Documents and has performed a detailed investigation of the site (including but not limited to visiting and inspecting the Work areas and taking detailed field measurements), and represents that the Contractor is thoroughly familiar with the nature and location of the Work, the site, the specific conditions under which the Work is to be performed, and all matters which may in any way affect the Work or its performance.

§ 7.3 The Work

The term "Work" means the construction and services required by the Contract Documents, whether completed or partially completed, and includes all other labor, materials, equipment, and services provided or to be provided by the Contractor to fulfill the Contractor's obligations. The Work may constitute the whole or a part of the Project.

§ 7.4 Instruments of Service

~~§ 7.5 Ownership and use of Drawings, Specifications and Other Instruments of Service~~

~~§ 7.5.1 The Architect and the Architect's consultants shall be deemed the authors and owners of their respective Instruments of Service, including the Drawings and Specifications, and will retain all common law, statutory and other reserved rights in their Instruments of Service, including copyrights. The Contractor, Subcontractors, Sub-subcontractors, and suppliers shall not own or claim a copyright in the Instruments of Service. Submittal or distribution to meet official regulatory requirements or for other purposes in connection with the Project is not to be construed as publication in derogation of the Architect's or Architect's consultants' reserved rights.~~

§ 7.5.2 The Contractor, Subcontractors, Sub-subcontractors and suppliers are authorized to use and reproduce the Instruments of Service provided to them, subject to the protocols established pursuant to Sections 7.6 and 7.7, solely and exclusively for execution of the Work. All copies made under this authorization shall bear the copyright notice, if any, shown on the Instruments of Service. The Contractor, Subcontractors, Sub-subcontractors, and suppliers may not use the Instruments of Service on other projects or for additions to this Project outside the scope of the Work without the specific written consent of the Owner, Architect and the Architect's consultants.

§ 7.6 Digital Data Use and Transmission

The parties shall agree upon protocols governing the transmission and use of Instruments of Service or any other information or documentation in digital form. The parties will use AIA Document E203™-2013, Building Information Modeling and Digital Data Exhibit, to establish the protocols for the development, use, transmission, and exchange of digital data.

§ 7.7 Building Information Models Use and Reliance

Any use of, or reliance on, all or a portion of a building information model without agreement to protocols governing the use of, and reliance on, the information contained in the model and without having those protocols set forth in AIA Document E203™-2013, Building Information Modeling and Digital Data Exhibit, and the requisite AIA Document G202™-2013, Project Building Information Modeling Protocol Form, shall be at the using or relying party's sole risk and without liability to the other party and its contractors or consultants, the authors of, or contributors to, the building information model, and each of their agents and employees.

§ 7.58 Severability

The invalidity of any provision of the Contract Documents shall not invalidate the Contract or its remaining provisions. If it is determined that any provision of the Contract Documents violates any law, or is otherwise invalid or unenforceable, then that provision shall be revised to the extent necessary to make that provision legal and enforceable. In such case the Contract Documents shall be construed, to the fullest extent permitted by law, to give effect to the parties' intentions and purposes in executing the Contract.

§ 7.69 Notice

§ 7.69.1 Except as otherwise provided in Section 7.9.2, where the Contract Documents require one party to notify or give notice to the other party, such notice shall be provided in writing to the designated representative of the party to whom the notice is addressed and shall be deemed to have been duly served if delivered in person, by mail, by courier, or by electronic transmission in accordance with AIA Document E203™-2013, Building Information Modeling and Digital Data Exhibit, if completed, or as otherwise set forth below:

§ 7.740 Relationship of the Parties

Where the Contract is based on the Cost of the Work plus the Contractor's Fee, with or without a Guaranteed Maximum Price, the Contractor accepts the relationship of trust and confidence established by this Agreement and covenants with the Owner to cooperate with the Architect and exercise the Contractor's skill and judgment in furthering the interests of the Owner; to furnish efficient business administration and supervision; to furnish at all times an adequate supply of workers and materials; and to perform the Work in an expeditious and economical manner consistent with the Owner's interests. The Owner agrees to furnish and approve, in a timely manner, information required by the Contractor and to make payments to the Contractor in accordance with the requirements of the Contract Documents.

ARTICLE 8 OWNER

§ 8.1 Information and Services Required of the Owner

§ 8.1.1 Prior to commencement of the Work, at the written request by the Contractor, the Owner shall furnish to the Contractor reasonable evidence that the Owner has made financial arrangements to fulfill the Owner's obligations under the Contract. The Contractor shall have no obligation to commence the Work until the Owner provides such evidence. If commencement of the Work is delayed under this Section 8.1.1, the Contract Time shall be extended appropriately.

§ 8.1.2 The Owner shall furnish all reasonably necessary surveys and a legal description of the site.

§ 8.1.3 The Contractor shall be entitled to rely on the accuracy of information furnished by the Owner but shall exercise proper precautions relating to the safe performance of the Work.

§ 8.1.4 Except for permits and fees that are the responsibility of the Contractor under the Contract Documents, including those required under Section 9.6.1, the Owner shall secure and pay for other necessary approvals, easements, assessments, and charges required for the construction, use, or occupancy of permanent structures or for permanent changes in existing facilities. All additional costs incurred by Owner for retesting of failed products, systems or installed work shall be paid by the Contractor causing defects.

§ 8.2 Owner's Right to Stop the Work

If the Contractor fails to correct Work which is not in accordance with the requirements of the Contract Documents, or repeatedly fails to carry out the Work in accordance with the Contract Documents, the Owner may issue a written order to the Contractor to stop the Work, or any portion thereof, until the cause for such order is eliminated; however, the right of the Owner to stop the Work shall not give rise to a duty on the part of the Owner to exercise this right for the benefit of the Contractor or any other person or entity.

§ 8.3 Owner's Right to Carry Out the Work

If the Contractor defaults or neglects to carry out the Work in accordance with the Contract Documents, and fails within a ten-day period after receipt of notice from the Owner to commence and continue correction of such default or neglect with diligence and promptness, the Owner may, without prejudice to any other remedies the Owner may have, correct such default or neglect. Such action by the Owner and amounts charged to the Contractor are both subject to prior approval of the Architect and the Architect may, pursuant to Section 15.4.3, withhold or nullify a Certificate for Payment in whole or in part, to the extent reasonably necessary to reimburse the Owner for the reasonable cost of correcting such deficiencies, including the Owner's expenses and compensation for the Architect's additional services made necessary by such default, neglect, or failure. If the Contractor disagrees with the actions of the Owner or the Architect, or the amounts claimed as costs to the Owner, the Contractor may file a Claim pursuant to Article 21.

§ 8.4 Extent of Owner's Rights

The rights stated in this Article 8 and elsewhere in the Contract Documents are cumulative and not in limitation of any rights of the Owner (i) granted in the Contract Documents, (ii) at law, or (iii) in equity. In no event shall the Owner have control over, charge of, or any responsibility for construction means, methods, techniques, sequences, or procedures or for safety precautions and programs in connection with the Work, notwithstanding any of the rights and authority granted the Owner in the Contract Documents.

ARTICLE 9 CONTRACTOR

§ 9.1 Review of Contract Documents and Field Conditions by Contractor

§ 9.1.1 Execution of the Contract by the Contractor is a representation that the Contractor has visited the site, become generally familiar with local conditions under which the Work is to be performed and correlated personal observations with requirements of the Contract Documents.

§ 9.1.2 Because the Contract Documents are complementary, the Contractor shall, before starting each portion of the Work, carefully study and compare the various Contract Documents relative to that portion of the Work, as well as the information furnished by the Owner pursuant to Section 8.1.2, shall take field measurements of any existing conditions related to that portion of the Work and shall observe any conditions at the site affecting it. These

obligations are for the purpose of facilitating coordination and construction by the Contractor and are not for the purpose of discovering errors, omissions, or inconsistencies in the Contract Documents; however, the Contractor shall promptly report to ~~the Architect~~ the Owner any errors, inconsistencies, or omissions discovered by or made known to the Contractor as a request for information in such form as the ~~Architect-Owner~~ may require. It is recognized that the Contractor's review is made in the Contractor's capacity as a contractor and not as a licensed design professional unless otherwise specifically provided in the Contract Documents.

§ 9.1.3 The Contractor is not required to ascertain that the Contract Documents are in accordance with applicable laws, statutes, ordinances, codes, rules and regulations, or lawful orders of public authorities, but the Contractor shall promptly report to the ~~Architect-Owner~~ any nonconformity discovered by or made known to the Contractor as a request for information in such form as ~~the Architect~~ the Owner may require.

§ 9.2.1 The Contractor shall supervise and direct the Work, using the Contractor's best skill and attention. § 9.3.2 The Contractor shall enforce strict discipline and good order among the Contractor's employees and other persons carrying out the Work. The Contractor shall not permit employment of unfit persons or persons not skilled in tasks assigned to them.

§ 9.3.3 The Contractor may make a substitution only with the consent of the Owner, ~~after evaluation by the Architect~~ and in accordance with a Modification.

§ 9.4 Warranty

The Contractor warrants to the Owner ~~and Architect~~ that materials and equipment furnished under the Contract will be of good quality and new unless the Contract Documents require or permit otherwise. The Contractor further warrants that the Work will conform to the requirements of the Contract Documents and will be free from defects, except for those inherent in the quality of the Work the Contract Documents require or permit. Work, materials, or equipment not conforming to these requirements may be considered defective. The Contractor's warranty excludes remedy for damage or defect caused by abuse, alterations to the Work not executed by the Contractor, improper or insufficient maintenance, improper operation or normal wear and tear under normal usage. The foregoing warranties shall be in effect for a period of one (1) year from the date of Final Completion. All other warranties required by the Contract Documents shall be issued in the name of the Owner, or shall be transferable to the Owner, and shall commence in accordance with Section 15.6.3. The warranties provided pursuant to this Contract shall not be construed to modify or limit, in any way, any rights or actions which the Owner may otherwise have against the Contractor by law or statute, or in equity. All warranties, including all equipment warranties, will inure to the benefit of the Owner and the Owner's successors and assigns.

§ 9.4.1 As a condition to final payment, the Contractor shall assign and transfer to the Owner all guarantees, warranties and agreements from Contractor, all contractors, Subcontractors, Sub-subcontractors, vendors, suppliers or manufacturers regarding their performance, quality of workmanship or quality of materials or equipment supplied

~~in connection with the Work. The Contractor represents and warrants that all such guarantees, warranties, and agreements shall be in place and enforceable by the Owner in accordance with their terms.~~

§ 9.5 Taxes

By submitting Shop Drawings, Product Data, Samples, and similar submittals, the Contractor represents to the Owner and Architect that the Contractor has (1) reviewed and approved them; (2) determined and verified materials, field measurements, and field construction criteria related thereto, or will do so; and (3) checked and coordinated the information contained within such submittals with the requirements of the Work and of the Contract Documents. The Work shall be in accordance with approved submittals.~~

~~§ 9.9.2 Shop Drawings, Product Data, Samples and similar submittals are not Contract Documents.~~

~~§ 9.9.3 The Contractor shall not be required to provide professional services that constitute the practice of architecture or engineering unless such services are specifically required by the Contract Documents or unless the Contractor needs to provide such services in order to carry out the Contractor's own responsibilities. § 9.13 Access to Work

The Contractor shall provide the Owner and Architect with access to the Work in preparation and progress wherever located.

§ 9.14 Royalties, Patents and Copyrights

The Contractor shall pay all royalties and license fees. The Contractor shall defend suits or claims for infringement of copyrights and patent rights and shall hold the Owner and Architect harmless from loss on account thereof, but shall not be responsible for defense or loss when a particular design, process, or product of a particular manufacturer or manufacturers is required by the Contract Documents or where the copyright violations are contained in Drawings, Specifications or other documents prepared by the Owner or Architect. However, if an infringement of a copyright or patent is discovered by, or made known to, the Contractor, the Contractor shall be responsible for the loss unless the information is promptly furnished to the Owner-Architect.

§ 9.15 Indemnification

§ 9.15.1 To the fullest extent permitted by law, the Contractor shall indemnify and hold harmless the Owner, Architect, Architect's Owner's consultants, and agents and employees of any of them from and against claims, damages, losses and expenses, including but not limited to attorneys' fees, arising out of or resulting from performance of the Work, provided that such claim, damage, loss, or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself), but only to the extent caused by the negligent acts or omissions of the Contractor, a Subcontractor, anyone directly or indirectly employed by them, or anyone for whose acts they may be liable, regardless of whether or not such claim, damage, loss, or expense is caused in part by a party indemnified hereunder. Such obligation shall not be construed to negate, abridge, or reduce other rights or obligations of indemnity which would otherwise exist as to a party or person described in this Section 9.15.1.

§ 9.15.2 In claims against any person or entity indemnified under this Section 9.15 by an employee of the Contractor, a Subcontractor, anyone directly or indirectly employed by them, or anyone for whose acts they may be liable, the indemnification obligation under Section 9.15.1 shall not be limited by a limitation on amount or type of damages, compensation or benefits payable by or for the Contractor or Subcontractor under workers' compensation acts, disability benefit acts or other employee benefit acts.

ARTICLE 10 — ARCHITECT

§ 10.1 The Architect will provide administration of the Contract as described in the Contract Documents and will be an Owner's representative during construction, until the date the Architect issues the final Certificate for Payment. The Architect will have authority to act on behalf of the Owner only to the extent provided in the Contract Documents, unless otherwise modified in writing in accordance with other provisions of the Contract.

~~§ 10.2 Duties, responsibilities, and limitations of authority of the Architect as set forth in the Contract Documents shall not be restricted, modified, or extended without written consent of the Owner, Contractor, and Architect. Consent shall not be unreasonably withheld.~~

~~§ 10.3 The Architect will visit the site at intervals appropriate to the stage of the construction to become generally familiar with the progress and quality of the portion of the Work completed, and to determine in general, if the Work observed is being performed in a manner indicating that the Work, when fully completed, will be in accordance with the Contract Documents. However, the Architect will not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. The Architect will not have control over, charge of, or responsibility for the construction means, methods, techniques, sequences, or procedures, or for safety precautions and programs in connection with the Work, since these are solely the Contractor's rights and responsibilities under the Contract Documents.~~

~~§ 10.4 On the basis of the site visits, the Architect will keep the Owner reasonably informed about the progress and quality of the portion of the Work completed, and promptly report to the Owner (1) known deviations from the Contract Documents, (2) known deviations from the most recent construction schedule submitted by the Contractor, and (3) defects and deficiencies observed in the Work. The Architect will not be responsible for the Contractor's failure to perform the Work in accordance with the requirements of the Contract Documents. The Architect will not have control over or charge of and will not be responsible for acts or omissions of the Contractor, Subcontractors, or their agents or employees, or any other persons or entities performing portions of the Work.~~

~~§ 10.5 Based on the Architect's evaluations of the Work and of the Contractor's Applications for Payment, the Architect will review and certify the amounts due the Contractor and will issue Certificates for Payment in such amounts.~~

~~§ 10.6 The Architect has authority to reject Work that does not conform to the Contract Documents and to require inspection or testing of the Work.~~

~~§ 10.7 The Architect will review and approve or take other appropriate action upon, the Contractor's submittals such as Shop Drawings, Product Data, and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents.~~

~~§ 10.8 The Architect will interpret and decide matters concerning performance under, and requirements of, the Contract Documents on written request of either the Owner or Contractor. The Architect will make initial decisions on all claims, disputes, and other matters in question between the Owner and Contractor but will not be liable for results of any interpretations or decisions rendered in good faith.~~

~~§ 10.9 The Architect's decisions on matters relating to aesthetic effect will be final if consistent with the intent expressed in the Contract Documents.~~

ARTICLE 11 SUBCONTRACTORS

§ 11.1 A Subcontractor is a person or entity who has a direct contract with the Contractor to perform a portion of the Work at the site.

§ 11.2 Unless otherwise stated in the Contract Documents, the Contractor, as soon as practicable after award of the Contract, shall notify the Owner and Architect of the Subcontractors or suppliers proposed for each of the principal portions of the Work. The Contractor shall not contract with any Subcontractor or supplier to whom the Owner or Architect has made reasonable written objection within ten days after receipt of the Contractor's list of Subcontractors and suppliers. If the proposed but rejected Subcontractor was reasonably capable of performing the Work, the Contract Sum and Contract Time shall be increased or decreased by the difference, if any, occasioned by such change, and an appropriate Change Order shall be issued before commencement of the substitute Subcontractor's Work. The Contractor shall not be required to contract with anyone to whom the Contractor has made reasonable objection.

§ 11.3 Contracts between the Contractor and Subcontractors shall (1) require each Subcontractor, to the extent of the Work to be performed by the Subcontractor, to be bound to the Contractor by the terms of the Contract Documents, and to assume toward the Contractor all the obligations and responsibilities, including the responsibility for safety of

the Subcontractor's Work, which the Contractor, by the Contract Documents, assumes toward the Owner and Architect, and (2) allow the Subcontractor the benefit of all rights, remedies and redress against the Contractor that the Contractor, by these Contract Documents, has against the Owner.

ARTICLE 12 CONSTRUCTION BY OWNER OR BY SEPARATE CONTRACTORS

§ 12.1 The term "Separate Contractor(s)" shall mean other contractors retained by the Owner under separate agreements. The Owner reserves the right to perform construction or operations related to the Project with the Owner's own forces, and with Separate Contractors retained under Conditions of the Contract substantially similar to those of this Contract, including those provisions of the Conditions of the Contract related to insurance and waiver of subrogation.

§ 12.2 The Contractor shall afford the Owner and Separate Contractors reasonable opportunity for introduction and storage of their materials and equipment and performance of their activities, and shall connect and coordinate the Contractor's activities with theirs as required by the Contract Documents.

§ 12.3 The Owner shall be reimbursed by the Contractor for costs incurred by the Owner which are payable to a Separate Contractor because of delays, improperly timed activities, or defective construction of the Contractor. The Owner shall be responsible to the Contractor for costs incurred by the Contractor because of delays, improperly timed activities, damage to the Work, or defective construction of a Separate Contractor.

ARTICLE 13 CHANGES IN THE WORK

§ 13.1 By appropriate Modification, changes in the Work may be accomplished after execution of the Contract. The Owner, without invalidating the Contract, may order changes in the Work within the general scope of the Contract consisting of additions, deletions, or other revisions, with the Contract Sum and Contract Time being adjusted accordingly. Such changes in the Work shall be authorized by written Change Order signed by the Owner, and Contractor, and Architect, or by written Construction Change Directive signed by the Owner and Architect. Upon issuance of the Change Order or Construction Change Directive, the Contractor shall proceed promptly with such changes in the Work, unless otherwise provided in the Change Order or Construction Change Directive.

§ 13.2 Adjustments in the Contract Sum and Contract Time resulting from a change in the Work shall be determined by mutual agreement of the parties or, in the case of a Construction Change Directive signed only by the Owner and Architect, by the Contractor's cost of labor, material, equipment, and reasonable overhead and profit, unless the parties agree on another method for determining the cost or credit. Pending final determination of the total cost of a Construction Change Directive, the Contractor may request payment for Work completed pursuant to the Construction Change Directive. ~~The Architect will make an interim determination of the amount of payment due for purposes of certifying the Contractor's monthly Application for Payment.~~ When the Owner and Contractor agree on adjustments to the Contract Sum and Contract Time arising from a Construction Change Directive, the Architect will prepare a Change Order.

~~§ 13.3 The Architect will have authority to order minor changes in the Work not involving adjustment in the Contract Sum or extension of the Contract Time and not inconsistent with the intent of the Contract Documents. Such changes shall be effected by written order and shall be binding on the Owner and Contractor. The Contractor shall carry out such written orders promptly. If the Contractor believes that the proposed minor change in the Work will affect the Contract Sum or Contract Time, the Contractor shall notify the Architect and shall not proceed to implement the change in the Work.~~

§ 13.4 If concealed or unknown physical conditions are encountered at the site that differ materially from those indicated in the Contract Documents or from those conditions ordinarily found to exist, the Contract Sum and Contract Time shall be equitably adjusted as mutually agreed between the Owner and Contractor; provided that the Contractor provides notice to the Owner and Architect promptly and before conditions are disturbed.

ARTICLE 14 TIME

§ 14.1 Time limits stated in the Contract Documents are of the essence of the Contract. By executing this Agreement, the Contractor confirms that the Contract Time is a reasonable period for performing the Work.

§ 14.2 Unless otherwise provided, Contract Time is the period of time, including authorized adjustments, allotted in the Contract Documents for Substantial Completion of the Work.

§ 14.3 The term "day" as used in the Contract Documents shall mean calendar day unless otherwise specifically defined.

§ 14.4 The date of Substantial Completion is the date certified by the ~~Owner-Architect~~ in accordance with Section 15.6.3.

§ 14.5 If the Contractor is delayed at any time in the commencement or progress of the Work by (1) changes ordered in the Work; or (2) by labor disputes, fire, unusual delay in deliveries, abnormal adverse weather conditions not reasonably anticipatable, unavoidable casualties, or any causes beyond the Contractor's control; ~~or (3) by other causes that the Contractor asserts, and the Architect determines, justify delay,~~ then the Contract Time shall be extended for such reasonable time as ~~the Architect-Owner~~ may determine, subject to the provisions of Article 21.

ARTICLE 15 PAYMENTS AND COMPLETION

§ 15.1 Schedule of Values

§ 15.1.1 Where the Contract is based on a Stipulated Sum or the Cost of the Work with a Guaranteed Maximum Price pursuant to Section 3.2 or 3.4, the Contractor shall submit a schedule of values to the ~~Owner-Architect~~ before the first Application for Payment, allocating the entire Stipulated Sum or Guaranteed Maximum Price to the various portions of the Work. The schedule of values shall be prepared in the form, and supported by the data to substantiate its accuracy required by the ~~Architect-Owner~~. This schedule of values shall be used as a basis for reviewing the Contractor's Applications for Payment.

§ 15.1.2 The allocation of the Stipulated Sum or Guaranteed Maximum Price under this Section 15.1 shall not constitute a separate stipulated sum or guaranteed maximum price for each individual line item in the schedule of values.

§ 15.2 Control Estimate

~~§ 15.2.1 Where the Contract Sum is the Cost of the Work, plus the Contractor's Fee without a Guaranteed Maximum Price pursuant to Section 3.3, the Contractor shall prepare and submit to the Owner a Control Estimate within 14 days of executing this Agreement. The Control Estimate shall include the estimated Cost of the Work plus the Contractor's Fee.~~

§ 15.2.2 The Control Estimate shall include:

- ~~1. the documents enumerated in Article 6, including all Modifications thereto;~~
- ~~2. a list of the assumptions made by the Contractor in the preparation of the Control Estimate to supplement the information provided by the Owner and contained in the Contract Documents;~~
- ~~3. a statement of the estimated Cost of the Work organized by trade categories or systems and the Contractor's Fee;~~
- ~~4. a project schedule upon which the Control Estimate is based, indicating proposed Subcontractors, activity sequences and durations, milestone dates for receipt and approval of pertinent information, schedule of shop drawings and samples, procurement and delivery of materials or equipment, the Owner's occupancy requirements, and the date of Substantial Completion; and~~
- ~~5. a list of any contingency amounts included in the Control Estimate for further development of design and construction.~~

~~§ 15.2.3 When the Control Estimate is acceptable to the Owner and Architect, the Owner shall acknowledge it in writing. The Owner's acceptance of the Control Estimate does not imply that the Control Estimate constitutes a Guaranteed Maximum Price.~~

~~§ 15.2.4 The Contractor shall develop and implement a detailed system of cost control that will provide the Owner and Architect with timely information as to the anticipated total Cost of the Work. The cost control system shall compare the Control Estimate with the actual cost for activities in progress and estimates for uncompleted tasks and proposed changes. This information shall be reported to the Owner, in writing, no later than the Contractor's first Application for Payment and shall be revised and submitted with each Application for Payment.~~

~~§ 15.2.5 The Owner shall authorize preparation of revisions to the Contract Documents that incorporate the agreed-upon assumptions contained in the Control Estimate. The Owner shall promptly furnish such revised Contract Documents to the Contractor. The Contractor shall notify the Owner and Architect of any inconsistencies between the Control Estimate and the revised Contract Documents.~~

§ 15.3 Applications for Payment

§ 15.3.1 At least ten days before the date established for each progress payment, the Contractor shall submit to the ~~Architect~~ Owner an itemized Application for Payment prepared in accordance with the schedule of values, if required under Section 15.1, for completed portions of the Work. The application shall be notarized, if required; be supported by all data substantiating the Contractor's right to payment that the Owner ~~or Architect~~ require; shall reflect retainage if provided for in the Contract Documents; and include any revised cost control information required by Section 15.2.4. Applications for Payment shall not include requests for payment for portions of the Work for which the Contractor does not intend to pay a Subcontractor or ~~supplier, unless~~ supplier unless such Work has been performed by others whom the Contractor intends to pay.

~~§ 15.3.2 With each Application for Payment where the Contract Sum is based upon the Cost of the Work, or the Cost of the Work with a Guaranteed Maximum Price, the Contractor shall submit payrolls, petty cash accounts, receipted invoices or invoices with check vouchers attached, and any other evidence required by the Owner to demonstrate that cash disbursements already made by the Contractor on account of the Cost of the Work equal or exceed progress payments already received by the Contractor plus payrolls for the period covered by the present Application for Payment, less that portion of the progress payments attributable to the Contractor's Fee.~~

§ 15.3.3 Payments shall be made on account of materials and equipment delivered and suitably stored at the site for subsequent incorporation in the Work. If approved in advance by the Owner, payment may similarly be made for materials and equipment stored, and protected from damage, off the site at a location agreed upon in writing.

§ 15.3.4 The Contractor warrants that title to all Work covered by an Application for Payment will pass to the Owner no later than the time of payment. The Contractor further warrants that upon submittal of an Application for Payment all Work for which Certificates for Payment have been previously issued and payments received from the Owner shall, to the best of the Contractor's knowledge, information and belief, be free and clear of liens, claims, security interests or other encumbrances adverse to the Owner's interests.

§ 15.4 Certificates for Payment

~~§ 15.4.1 The Architect will, within seven days after receipt of the Contractor's Application for Payment, either issue to the Owner a Certificate for Payment, with a copy to the Contractor, for such amount as the Architect determines is properly due, or notify the Contractor and Owner of the Architect's reasons for withholding certification in whole or in part as provided in Section 15.4.3.~~

~~§ 15.4.2 The issuance of a Certificate for Payment will constitute a representation by the Architect to the Owner, based on the Architect's evaluations of the Work and the data in the Application for Payment, that to the best of the Architect's knowledge, information, and belief, the Work has progressed to the point indicated, the quality of the Work is in accordance with the Contract Documents, and the Contractor is entitled to payment in the amount certified. The foregoing representations are subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to results of subsequent tests and inspections, to correction of minor deviations from the Contract Documents prior to completion and to specific qualifications expressed by the Architect. However, the issuance of a Certificate for Payment will not be a representation that the Architect has (1) made exhaustive or continuous on-site inspections to check the quality or quantity of the Work; (2) reviewed construction means, methods, techniques, sequences, or procedures; (3) reviewed copies of requisitions received from Subcontractors and suppliers and other data requested by the Owner to substantiate the Contractor's right to payment; or (4) made examination to ascertain how or for what purpose the Contractor has used money previously paid on account of the Contract Sum.~~

~~§ 15.4.3 The Architect may withhold a Certificate for Payment in whole or in part, to the extent reasonably necessary to protect the Owner, if in the Architect's opinion the representations to the Owner required by Section 15.4.2 cannot be made. If the Architect is unable to certify payment in the amount of the Application, the Architect will notify the Contractor and Owner as provided in Section 15.4.1. If the Contractor and the Architect cannot agree on a revised amount, the Architect will promptly issue a Certificate for Payment for the amount for which the~~

~~Architect is able to make such representations to the Owner. The Architect may also withhold a Certificate for Payment or, because of subsequently discovered evidence, may nullify the whole or a part of a Certificate for Payment previously issued, to such extent as may be necessary in the Architect's opinion to protect the Owner from loss for which the Contractor is responsible, including loss resulting from acts and omissions described in Section 9.2.2, because of~~

- ~~1. defective Work not remedied;~~
- ~~2. third-party claims filed or reasonable evidence indicating probable filing of such claims unless security acceptable to the Owner is provided by the Contractor;~~
- ~~3. failure of the Contractor to make payments properly to Subcontractors or suppliers for labor, materials or equipment;~~
- ~~4. reasonable evidence that the Work cannot be completed for the unpaid balance of the Contract Sum;~~
- ~~5. damage to the Owner or a Separate Contractor;~~
- ~~6. reasonable evidence that the Work will not be completed within the Contract Time and that the unpaid balance would not be adequate to cover actual or liquidated damages for the anticipated delay;~~
~~or~~
- ~~7. repeated failure to carry out the Work in accordance with the Contract Documents.~~

~~§ 15.4.4 When either party disputes the Architect's decision regarding a Certificate for Payment under Section 15.4.3, in whole or in part, that party may submit a Claim in accordance with Article 21.~~

§ 15.5 Progress Payments

§ 15.5.1 The Contractor shall pay each Subcontractor, no later than seven days after receipt of payment from the Owner, the amount to which the Subcontractor is entitled, reflecting percentages actually retained from payments to the Contractor on account of the Subcontractor's portion of the Work. The Contractor shall, by appropriate agreement with each Subcontractor, require each Subcontractor to make payments to sub-subcontractors in a similar manner.

§ 15.5.2 ~~Neither the Owner nor Architect shall~~ not have an obligation to pay or see to the payment of money to a Subcontractor or supplier except as may otherwise be required by law.

§ 15.5.3 A Certificate for Payment, a progress payment, or partial or entire use or occupancy of the Project by the Owner shall not constitute acceptance of Work not in accordance with the Contract Documents.

§ 15.5.4 Provided the Owner has fulfilled its payment obligations under the Contract Documents, the Contractor shall defend and indemnify the Owner from all loss, liability, damage or expense, including reasonable attorney's fees and litigation expenses, arising out of any lien claim or other claim for payment by any Subcontractor or supplier of any tier. Upon receipt of notice of a lien claim or other claim for payment, the Owner shall notify the Contractor. If approved by the applicable court, when required, the Contractor may substitute a surety bond for the property against which the lien or other claim for payment has been asserted.

§ 15.6 Substantial Completion

§ 15.6.1 Substantial Completion is the stage in the progress of the Work when the Work or designated portion thereof is sufficiently complete in accordance with the Contract Documents so that the Owner can occupy or utilize the Work for its intended use.

§ 15.6.2 When the Contractor considers that the Work, or a portion thereof which the Owner agrees to accept separately, is substantially complete, the Contractor shall prepare and submit to the ~~Architect-Owner~~ a comprehensive list of items to be completed or corrected prior to final payment. Failure to include an item on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents.

§ 15.6.3 Upon receipt of the Contractor's list, the ~~Architect will~~ Owner will make an inspection to determine whether the Work or designated portion thereof is substantially complete. When the ~~Architect-Owner~~ determines that the Work or designated portion thereof is substantially complete, the ~~Architect-Owner~~ will issue a Certificate of Substantial Completion which shall establish the date of Substantial Completion; establish responsibilities of the Owner and Contractor for security, maintenance, heat, utilities, damage to the Work and insurance; and fix the time within which the Contractor shall finish all items on the list accompanying the Certificate. Warranties required by

the Contract Documents shall commence on the date of Substantial Completion of the Work or designated portion thereof unless otherwise provided in the Certificate of Substantial Completion.

§ 15.6.4 The Certificate of Substantial Completion shall be submitted to the ~~Owner and Contractor for their~~ its written acceptance of responsibilities assigned to them in the Certificate. Upon such acceptance and consent of surety, if any, the Owner shall make payment of retainage applying to the Work or designated portion thereof. Such payment shall be adjusted for Work that is incomplete or not in accordance with the requirements of the Contract Documents.

§ 15.7 Final Completion and Final Payment

§ 15.7.1 Upon receipt of the Contractor's notice that the Work is ready for final inspection and acceptance and upon receipt of a final Application for Payment, the ~~Architect-Owner~~ Architect-Owner will promptly make such inspection and, when the ~~Owner-Architect~~ Architect-Owner finds the Work acceptable under the Contract Documents and the Contract fully performed, the ~~Architect-Owner shall make final payment in accordance with this agreement, will promptly issue a final Certificate for Payment stating that to the best of the Architect's knowledge, information and belief, and on the basis of the Architect's on-site visits and inspections, the Work has been completed in accordance with the Contract Documents and that the entire balance found to be due the Contractor and noted in the final Certificate is due and payable. The Architect's final Certificate for Payment will constitute a further representation that conditions stated in Section 15.7.2 as precedent to the Contractor's being entitled to final payment have been fulfilled.~~

§ 15.7.2 Final payment shall not become due until the Contractor has delivered to the Owner a complete release of all liens arising out of this Contract or receipts in full covering all labor, materials and equipment for which a lien could be filed, or a bond satisfactory to the Owner to indemnify the Owner against such lien. If such lien remains unsatisfied after payments are made, the Contractor shall refund to the Owner all money that the Owner may be compelled to pay in discharging such lien, including costs and reasonable attorneys' fees.

§ 15.7.3 The making of final payment shall constitute a waiver of claims by the Owner except those arising from

1. liens, claims, security interests or encumbrances arising out of the Contract and unsettled;
2. failure of the Work to comply with the requirements of the Contract Documents;
3. terms of special warranties required by the Contract Documents; or
4. audits performed by the Owner, if permitted by the Contract Documents, after final payment.

§ 15.7.4 Acceptance of final payment by the Contractor, a Subcontractor or supplier shall constitute a waiver of claims by that payee except those previously made in writing and identified by that payee as unsettled at the time of the final Application for Payment.

§ 15.8 The Contractor expressly undertakes to defend the Owner, officers, directors and employees, at the Contractor's sole expense, against any actions, lawsuits, or proceedings brought against the Owner as a result of liens filed against the Work, the site of any of the Work, the Project site, and any improvements thereon, payments due the Contractor, or any portion of the Owner's property (collectively referred to in this Section 14.6 as "liens"). The Contractor hereby agrees to indemnify and hold the Owner and officers, directors and employees, harmless from and against any such liens or claims of lien and agrees to pay any judgment or lien resulting from any such actions, lawsuits, or proceedings.

§ 15.9 The Owner shall release any payments withheld due to a lien or claim of lien if the Contractor obtains security acceptable to the Owner or a lien bond that is (i) issued by a surety acceptable to the Owner, (ii) in form and substance satisfactory to the Owner, and (iii) in an amount not less than two hundred (200) percent (200%) of such lien claim or such other amount as required by applicable law. By posting a lien bond or other acceptable security, however, the Contractor shall not be relieved of any responsibilities or obligations under this Section 15.8, including, without limitation, the duty to defend and indemnify the Owner. The cost of any premiums incurred in connection with such bonds and security shall be the sole responsibility of the Contractor and shall not be part of, or cause any adjustment to, the Contract Sum.

§ 15.10 Notwithstanding the foregoing, the Owner reserves the right to settle any disputed mechanic's or material supplier's lien claim by payments to the lien claimant or by such other means as the Owner, in the Owner's sole and absolute discretion, determines is the most economical or advantageous method of settling the dispute. The Contractor shall promptly reimburse the Owner, upon demand, for any payments so made.

ARTICLE 16 PROTECTION OF PERSONS AND PROPERTY

§ 16.1 Safety Precautions and Programs

The Contractor shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the performance of the Contract. The Contractor shall take reasonable precautions for safety of, and shall provide reasonable protection to prevent damage, injury, or loss to

1. employees on the Work and other persons who may be affected thereby;
2. the Work and materials and equipment to be incorporated therein, whether in storage on or off the site, under care, custody, or control of the Contractor, a Subcontractor, or a Sub-subcontractor; and
3. other property at the site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation, or replacement in the course of construction.

The Contractor shall comply with, and give notices required by, applicable laws, statutes, ordinances, codes, rules and regulations, and lawful orders of public authorities bearing on safety of persons and property and their protection from damage, injury, or loss. The Contractor shall promptly remedy damage and loss to property caused in whole or in part by the Contractor, a Subcontractor, a sub-subcontractor, or anyone directly or indirectly employed by any of them, or by anyone for whose acts they may be liable and for which the Contractor is responsible under Sections 16.1.2 and 16.1.3. The Contractor may make a claim for the cost to remedy the damage or loss to the extent such damage or loss is attributable to acts or omissions of the Owner ~~or Architect~~ or by anyone for whose acts either of them may be liable, and not attributable to the fault or negligence of the Contractor. The foregoing obligations of the Contractor are in addition to the Contractor's obligations under Section 9.13.

§ 16.2 Hazardous Materials and Substances

§ 16.2.1 The Contractor is responsible for compliance with the requirements of the Contract Documents regarding hazardous materials or substances. If the Contractor encounters a hazardous material or substance not addressed in the Contract Documents, and if reasonable precautions will be inadequate to prevent foreseeable bodily injury or death to persons resulting from a material or substance, including but not limited to asbestos or polychlorinated biphenyl (PCB), encountered on the site by the Contractor, the Contractor shall, upon recognizing the condition, immediately stop Work in the affected area and notify the ~~Owner and Architect or~~ Owner of the condition. When the material or substance has been rendered harmless, Work in the affected area shall resume upon written agreement of the Owner and Contractor. By Change Order, the Contract Time shall be extended appropriately and the Contract Sum shall be increased in the amount of the Contractor's reasonable additional costs of shutdown, delay, and start-up.

§ 16.2.2 To the fullest extent permitted by law, the Owner shall indemnify and hold harmless the Contractor, Subcontractors, ~~Architect, Architect's consultants, and agents~~ and employees of any of them from and against claims, damages, losses, and expenses, including but not limited to attorneys' fees, arising out of or resulting from performance of the Work in the affected area, if in fact, the material or substance presents the risk of bodily injury or death as described in Section 16.2.1 and has not been rendered harmless, provided that such claim, damage, loss, or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself), except to the extent that such damage, loss, or expense is due to the fault or negligence of the party seeking indemnity.

§ 16.2.3 If, without negligence on the part of the Contractor, the Contractor is held liable by a government agency for the cost of remediation of a hazardous material or substance solely by reason of performing Work as required by the Contract Documents, the Owner shall indemnify the Contractor for all cost and expense thereby incurred.

ARTICLE 17 INSURANCE AND BONDS

§ 17.1 Contractor's Insurance

§ 17.1.1 The Contractor shall purchase and maintain insurance of the types and limits of liability, containing the endorsements, and subject to the terms and conditions, as described in this Section 17.1 or elsewhere in the Contract Documents. The Contractor shall purchase and maintain the insurance required by this Agreement from an insurance company or insurance companies lawfully authorized to issue insurance in the jurisdiction where the Project is located. The Contractor shall maintain the required insurance until the expiration of the period for correction of Work as set forth in Section 18.4, unless a different duration is stated below:

§ 17.1.2

§ 17.1.2 Commercial General Liability insurance for the Project written on an occurrence form with policy limits of not less than ~~two million dollars~~ (\$ ~~2,000,000.00~~) each occurrence, ~~Two Million Dollars~~ (\$ ~~2,000,000.00~~) general aggregate, and ~~(\$)~~ aggregate for products-completed operations hazard, providing coverage for claims including Commercial General Liability insurance for the Project written on an occurrence form with policy limits of not less than ~~(\$)~~ each occurrence, ~~(\$)~~ general aggregate, and ~~(\$)~~ aggregate for products-completed operations hazard, providing coverage for claims including

1. damages because of bodily injury, sickness or disease, including occupational sickness or disease, and death of any person;
2. personal and advertising injury;
3. damages because of physical damage to or destruction of tangible property, including the loss of use of such property;
4. bodily injury or property damage arising out of completed operations; and
5. the Contractor's indemnity obligations under Section 9.15.

An excess/umbrella policy in the amount of \$2,000,000.00.

§ 17.1.3 Automobile Liability covering vehicles owned by the Contractor and non-owned vehicles used by the Contractor, with policy limits of not less than ~~One Million Dollars~~ (\$ ~~1,000,000.00~~) per accident, for bodily injury, death of any person, and property damage arising out of the ownership, maintenance, and use of those motor vehicles along with any other statutorily required automobile coverage.

§ 17.1.4 The Contractor may achieve the required limits and coverage for Commercial General Liability and Automobile Liability through a combination of primary and excess or umbrella liability insurance, provided such primary and excess or umbrella insurance policies result in the same or greater coverage as those required under Section 17.1.2 and 17.1.3, and in no event shall any excess or umbrella liability insurance provide narrower coverage than the primary policy. The excess policy shall not require the exhaustion of the underlying limits only through the actual payment by the underlying insurers.

§ 17.1.5 Workers' Compensation at statutory limits.

§ 17.1.6 Employers' Liability with policy limits not less than ~~(\$)~~ each accident, ~~(\$)~~ each employee, and ~~(\$)~~ policy limit.

§ 17.1.7 If the Contractor is required to furnish professional services as part of the Work, the Contractor shall procure Professional Liability insurance covering performance of the professional services, with policy limits of not less than ~~(\$)~~ per claim and ~~(\$)~~ in the aggregate.

§ 17.1.8 If the Work involves the transport, dissemination, use, or release of pollutants, the Contractor shall procure Pollution Liability insurance, with policy limits of not less than ~~(\$)~~ per claim and ~~(\$)~~ in the aggregate.

§ 17.1.9 Coverage under Sections 17.1.7 and 17.1.8 may be procured through a Combined Professional Liability and Pollution Liability insurance policy, with combined policy limits of not less than ~~(\$)~~ per claim and ~~(\$)~~ in the aggregate.

ARTICLE 7 GENERAL PROVISIONS

§ 7.1 The Contract Documents

The Contract Documents are enumerated in Article 6 and consist of this Agreement (including, if applicable, Supplementary and other Conditions of the Contract), Drawings, Specifications, Addenda issued prior to the execution of this Agreement, other documents listed in this Agreement, and Modifications issued after execution of this Agreement. A Modification is (1) a written amendment to the Contract signed by both parties, (2) a Change Order, or (3) a Construction Change Directive. ~~Directive, or (4) a written order for a minor change in the Work issued by the Architect.~~ The intent of the Contract Documents is to include all items necessary for the proper execution and completion of the Work by the Contractor. The Contract Documents are complementary, and what is required by one shall be as binding as if required by all; performance by the Contractor shall be required to the extent consistent with the Contract Documents and reasonably inferable from them as being necessary to produce the indicated results.

Unless otherwise set forth, in the event that there are discrepancies among terms, conditions and/or requirements relating to Contractor's performance, the most stringent terms, conditions and/or requirements shall control.

Contractor acknowledges and agrees that the Contract Documents are adequate and sufficient to provide for the completion of the Work, and include all Work, whether or not shown or described, which reasonably may be inferred to be required or useful for the completion of the Work in accordance with all applicable laws, codes, and professional standards. Work includes all labor, materials, equipment and services to complete all specified procedures, repairs and waterproofing, satisfy all governmental conditions including but not limited to obtaining permits, etc., all necessary protection measures for safety and to preserve existing or adjacent Work, together with all attendant cleaning and removal of debris.

§ 7.2 The Contract

The Contract Documents form the Contract for Construction. The Contract represents the entire and integrated agreement between the parties hereto and supersedes prior negotiations, representations, or agreements, either written or oral. The Contract may be amended or modified only by a Modification. The Contract Documents shall not be construed to create a contractual relationship of any kind between any persons or entities other than the Owner and the Contractor. Contractor expressly represents that the Contractor has carefully examined the Contract Documents and has performed a detailed investigation of the site (including but not limited to visiting and inspecting the Work areas and taking detailed field measurements), and represents that the Contractor is thoroughly familiar with the nature and location of the Work, the site, the specific conditions under which the Work is to be performed, and all matters which may in any way affect the Work or its performance.

§ 7.3 The Work

The term "Work" means the construction and services required by the Contract Documents, whether completed or partially completed, and includes all other labor, materials, equipment, and services provided or to be provided by the Contractor to fulfill the Contractor's obligations. The Work may constitute the whole or a part of the Project.

§ 7.4 Instruments of Service

Instruments of Service are representations, in any medium of expression now known or later developed, of the tangible and intangible creative work performed by ~~the Architect~~ the Owner and the ~~Architect's consultants~~ Owner's consultants under their respective professional services agreements. Instruments of Service may include, without limitation, studies, surveys, models, sketches, drawings, specifications, and other similar materials.

~~§ 7.5 Ownership and use of Drawings, Specifications and Other Instruments of Service~~

~~§ 7.5.1 The Architect and the Architect's consultants shall be deemed the authors and owners of their respective Instruments of Service, including the Drawings and Specifications, and will retain all common law, statutory and other reserved rights in their Instruments of Service, including copyrights. The Contractor, Subcontractors, Sub-subcontractors, and suppliers shall not own or claim a copyright in the Instruments of Service. Submittal or distribution to meet official regulatory requirements or for other purposes in connection with the Project is not to be construed as publication in derogation of the Architect's or Architect's consultants' reserved rights.~~

§ 7.5.2 The Contractor, Subcontractors, Sub-subcontractors and suppliers are authorized to use and reproduce the Instruments of Service provided to them, subject to the protocols established pursuant to Sections 7.6 and 7.7, solely and exclusively for execution of the Work. All copies made under this authorization shall bear the copyright notice, if any, shown on the Instruments of Service. The Contractor, Subcontractors, Sub-subcontractors, and suppliers may not use the Instruments of Service on other projects or for additions to this Project outside the scope of the Work without the specific written consent of the Owner, Architect and the Architect's consultants.

§ 7.6 Digital Data Use and Transmission

The parties shall agree upon protocols governing the transmission and use of Instruments of Service or any other information or documentation in digital form. The parties will use AIA Document E203™-2013, Building Information Modeling and Digital Data Exhibit, to establish the protocols for the development, use, transmission, and exchange of digital data.

§ 7.7 Building Information Models Use and Reliance

Any use of, or reliance on, all or a portion of a building information model without agreement to protocols governing the use of, and reliance on, the information contained in the model and without having those protocols set forth in AIA Document E203™-2013, Building Information Modeling and Digital Data Exhibit, and the requisite AIA Document G202™-2013, Project Building Information Modeling Protocol Form, shall be at the using or relying party's sole risk and without liability to the other party and its contractors or consultants, the authors of, or contributors to, the building information model, and each of their agents and employees.

§ 7.58 Severability

The invalidity of any provision of the Contract Documents shall not invalidate the Contract or its remaining provisions. If it is determined that any provision of the Contract Documents violates any law, or is otherwise invalid or unenforceable, then that provision shall be revised to the extent necessary to make that provision legal and enforceable. In such case the Contract Documents shall be construed, to the fullest extent permitted by law, to give effect to the parties' intentions and purposes in executing the Contract.

§ 7.69 Notice

§ 7.69.1 Except as otherwise provided in Section 7.9.2, where the Contract Documents require one party to notify or give notice to the other party, such notice shall be provided in writing to the designated representative of the party to whom the notice is addressed and shall be deemed to have been duly served if delivered in person, by mail, by courier, or by electronic transmission in accordance with AIA Document E203™-2013, Building Information Modeling and Digital Data Exhibit, if completed, or as otherwise set forth below:

(If other than in accordance with AIA Document E203-2013, insert requirements for delivering Notice in electronic format such as name, title and email address of the recipient and whether and how the system will be required to generate a read receipt for the transmission.)

« »

§ 7.69.2 Notice of Claims shall be provided in writing and shall be deemed to have been duly served only if delivered to the designated representative of the party to whom the notice is addressed by certified or registered mail, or by courier providing proof of delivery.

§ 7.740 Relationship of the Parties

Where the Contract is based on the Cost of the Work plus the Contractor's Fee, with or without a Guaranteed Maximum Price, the Contractor accepts the relationship of trust and confidence established by this Agreement and covenants with the Owner to ~~cooperate with the Architect and~~ exercise the Contractor's skill and judgment in furthering the interests of the Owner; to furnish efficient business administration and supervision; to furnish at all times an adequate supply of workers and materials; and to perform the Work in an expeditious and economical manner consistent with the Owner's interests. The Owner agrees to furnish and approve, in a timely manner, information required by the Contractor and to make payments to the Contractor in accordance with the requirements of the Contract Documents.

ARTICLE 8 OWNER

§ 8.1 Information and Services Required of the Owner

§ 8.1.1 Prior to commencement of the Work, at the written request by the Contractor, the Owner shall furnish to the Contractor reasonable evidence that the Owner has made financial arrangements to fulfill the Owner's obligations under the Contract. The Contractor shall have no obligation to commence the Work until the Owner provides such evidence. If commencement of the Work is delayed under this Section 8.1.1, the Contract Time shall be extended appropriately.

§ 8.1.2 The Owner shall furnish all reasonably necessary surveys and a legal description of the site.

§ 8.1.3 The Contractor shall be entitled to rely on the accuracy of information furnished by the Owner but shall exercise proper precautions relating to the safe performance of the Work.

§ 8.1.4 Except for permits and fees that are the responsibility of the Contractor under the Contract Documents, including those required under Section 9.6.1, the Owner shall secure and pay for other necessary approvals, easements, assessments, and charges required for the construction, use, or occupancy of permanent structures or for permanent changes in existing facilities. All additional costs incurred by Owner for retesting of failed products, systems or installed work shall be paid by the Contractor causing defects.

§ 8.2 Owner's Right to Stop the Work

If the Contractor fails to correct Work which is not in accordance with the requirements of the Contract Documents, or repeatedly fails to carry out the Work in accordance with the Contract Documents, the Owner may issue a written order to the Contractor to stop the Work, or any portion thereof, until the cause for such order is eliminated; however, the right of the Owner to stop the Work shall not give rise to a duty on the part of the Owner to exercise this right for the benefit of the Contractor or any other person or entity.

§ 8.3 Owner's Right to Carry Out the Work

If the Contractor defaults or neglects to carry out the Work in accordance with the Contract Documents, and fails within a ten-day period after receipt of notice from the Owner to commence and continue correction of such default or neglect with diligence and promptness, the Owner may, without prejudice to any other remedies the Owner may have, correct such default or neglect. Such action by the Owner and amounts charged to the Contractor are both subject to prior approval of the Architect and the Architect may, pursuant to Section 15.4.3, withhold or nullify a Certificate for Payment in whole or in part, to the extent reasonably necessary to reimburse the Owner for the reasonable cost of correcting such deficiencies, including the Owner's expenses and compensation for the Architect's additional services made necessary by such default, neglect, or failure. If the Contractor disagrees with the actions of the Owner or the Architect, or the amounts claimed as costs to the Owner, the Contractor may file a Claim pursuant to Article 21.

§ 8.4 Extent of Owner's Rights

The rights stated in this Article 8 and elsewhere in the Contract Documents are cumulative and not in limitation of any rights of the Owner (i) granted in the Contract Documents, (ii) at law, or (iii) in equity. In no event shall the Owner have control over, charge of, or any responsibility for construction means, methods, techniques, sequences, or procedures or for safety precautions and programs in connection with the Work, notwithstanding any of the rights and authority granted the Owner in the Contract Documents.

ARTICLE 9 CONTRACTOR

§ 9.1 Review of Contract Documents and Field Conditions by Contractor

§ 9.1.1 Execution of the Contract by the Contractor is a representation that the Contractor has visited the site, become generally familiar with local conditions under which the Work is to be performed and correlated personal observations with requirements of the Contract Documents.

§ 9.1.2 Because the Contract Documents are complementary, the Contractor shall, before starting each portion of the Work, carefully study and compare the various Contract Documents relative to that portion of the Work, as well as the information furnished by the Owner pursuant to Section 8.1.2, shall take field measurements of any existing conditions related to that portion of the Work and shall observe any conditions at the site affecting it. These

obligations are for the purpose of facilitating coordination and construction by the Contractor and are not for the purpose of discovering errors, omissions, or inconsistencies in the Contract Documents; however, the Contractor shall promptly report to ~~the Architect~~ the Owner any errors, inconsistencies, or omissions discovered by or made known to the Contractor as a request for information in such form as the ~~Architect~~ Owner may require. It is recognized that the Contractor's review is made in the Contractor's capacity as a contractor and not as a licensed design professional unless otherwise specifically provided in the Contract Documents.

§ 9.1.3 The Contractor is not required to ascertain that the Contract Documents are in accordance with applicable laws, statutes, ordinances, codes, rules and regulations, or lawful orders of public authorities, but the Contractor shall promptly report to the ~~Architect~~ Owner any nonconformity discovered by or made known to the Contractor as a request for information in such form as ~~the Architect~~ the Owner may require.

§ 9.2 Supervision and Construction Procedures

§ 9.2.1 The Contractor shall supervise and direct the Work, using the Contractor's best skill and attention. The Contractor shall be solely responsible for and have control over construction means, methods, techniques, sequences, and procedures, and for coordinating all portions of the Work under the Contract, unless the Contract Documents give other specific instructions concerning these matters.

§ 9.2.2 The Contractor shall be responsible to the Owner for acts and omissions of the Contractor's employees, Subcontractors and their agents and employees, and other persons or entities performing portions of the Work for or on behalf of the Contractor or any of its Subcontractors.

§ 9.3 Labor and Materials

§ 9.3.1 Unless otherwise provided in the Contract Documents, the Contractor shall provide and pay for labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, and other facilities and services necessary for proper execution and completion of the Work whether temporary or permanent and whether or not incorporated or to be incorporated in the Work.

§ 9.3.2 The Contractor shall enforce strict discipline and good order among the Contractor's employees and other persons carrying out the Work. The Contractor shall not permit employment of unfit persons or persons not skilled in tasks assigned to them.

§ 9.3.3 The Contractor may make a substitution only with the consent of the Owner, ~~after evaluation by the Architect~~ and in accordance with a Modification.

§ 9.4 Warranty

The Contractor warrants to the Owner ~~and Architect~~ that materials and equipment furnished under the Contract will be of good quality and new unless the Contract Documents require or permit otherwise. The Contractor further warrants that the Work will conform to the requirements of the Contract Documents and will be free from defects, except for those inherent in the quality of the Work the Contract Documents require or permit. Work, materials, or equipment not conforming to these requirements may be considered defective. The Contractor's warranty excludes remedy for damage or defect caused by abuse, alterations to the Work not executed by the Contractor, improper or insufficient maintenance, improper operation or normal wear and tear under normal usage. The foregoing warranties shall be in effect for a period of one (1) year from the date of Final Completion. All other warranties required by the Contract Documents shall be issued in the name of the Owner, or shall be transferable to the Owner, and shall commence in accordance with Section 15.6.3. Notwithstanding anything contained in this Contract to the contrary, any claim or other cause of action by the Owner against the Contractor, any Subcontractor, or any Sub-subcontractor, supplier, agent or employee of any of them pursuant to this Section 9.4 may be made at any time within the time period specified in the applicable statute of limitations. The warranties provided pursuant to this Contract shall not be construed to modify or limit, in any way, any rights or actions which the Owner may otherwise have against the Contractor by law or statute, or in equity. All warranties, including all equipment warranties, will inure to the benefit of the Owner and the Owner's successors and assigns.

§ 9.4.1 As a condition to final payment, the Contractor shall assign and transfer to the Owner all guarantees, warranties and agreements from Contractor, all contractors, Subcontractors, Sub-subcontractors, vendors, suppliers or manufacturers regarding their performance, quality of workmanship or quality of materials or equipment supplied

in connection with the Work. The Contractor represents and warrants that all such guarantees, warranties, and agreements shall be in place and enforceable by the Owner in accordance with their terms.

§ 9.5 Taxes

The Contractor shall pay sales, consumer, use, and other similar taxes that are legally enacted when bids are received or negotiations ~~concluded, concluded~~ whether or not yet effective or merely scheduled to go into effect.

§ 9.6 Permits, Fees, Notices, and Compliance with Laws

§ 9.6.1 Unless otherwise provided in the Contract Documents, the Contractor shall secure and pay for the building permit as well as other permits, fees, licenses, and inspections by government agencies necessary for proper execution and completion of the Work that are customarily secured after execution of the Contract and legally required at the time bids are received or negotiations concluded.

§ 9.6.2 The Contractor shall comply with and give notices required by applicable laws, statutes, ordinances, codes, rules and regulations, and lawful orders of public authorities applicable to performance of the Work. If the Contractor performs Work knowing it to be contrary to applicable laws, statutes, ordinances, codes, rules and regulations, or lawful orders of public authorities, the Contractor shall assume appropriate responsibility for such Work and shall bear the costs attributable to correction.

§ 9.7 Allowances

The Contractor shall include in the Contract Sum all allowances stated in the Contract Documents. The Owner shall select materials and equipment under allowances with reasonable promptness. Allowance amounts shall include the costs to the Contractor of materials and equipment delivered at the site and all required taxes, less applicable trade discounts. Contractor's costs for unloading and handling at the site, labor, installation, overhead, profit, and other expenses contemplated for stated allowance amounts shall be included in the Contract Sum but not in the allowance.

§ 9.8 Contractor's Construction Schedules

§ 9.8.1 The Contractor, promptly after being awarded the Contract, shall submit for the Owner's ~~and Architect's~~ information ~~written approval~~ a Contractor's construction schedule for the Work. The schedule shall not exceed time limits current under the Contract Documents, shall be revised at appropriate intervals as required by the conditions of the Work and Project, shall be related to the entire Project to the extent required by the Contract Documents, and shall provide for expeditious and practicable execution of the Work.

§ 9.8.2 The Contractor shall perform the Work in general accordance with the most recent schedule submitted to the Owner ~~and Architect~~.

§ 9.9 Submittals

§ 9.9.1 The Contractor shall review for compliance with the Contract Documents and submit to the Architect Shop Drawings, Product Data, Samples, and similar submittals required by the Contract Documents in coordination with the Contractor's construction schedule and in such sequence as to allow the Architect reasonable time for review. By submitting Shop Drawings, Product Data, Samples, and similar submittals, the Contractor represents to the Owner and Architect that the Contractor has (1) reviewed and approved them; (2) determined and verified materials, field measurements, and field construction criteria related thereto, or will do so; and (3) checked and coordinated the information contained within such submittals with the requirements of the Work and of the Contract Documents. The Work shall be in accordance with approved submittals.

§ 9.9.2 Shop Drawings, Product Data, Samples and similar submittals are not Contract Documents.

§ 9.9.3 The Contractor shall not be required to provide professional services that constitute the practice of architecture or engineering unless such services are specifically required by the Contract Documents or unless the Contractor needs to provide such services in order to carry out the Contractor's own responsibilities. If professional design services or certifications by a design professional are specifically required, the Owner and the Architect will specify the performance and design criteria that such services must satisfy. The Contractor shall cause such services or certifications to be provided by an appropriately licensed design professional. If no criteria are specified, the design shall comply with applicable codes and ordinances. Each Party shall be entitled to rely upon the information provided by the other Party. The Architect will review and approve or take other appropriate action on submittals for

~~the limited purpose of checking for conformance with information provided and the design concept expressed in the Contract Documents. The Architect's review of Shop Drawings, Product Data, Samples, and similar submittals shall be for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. In performing such review, the Architect will approve, or take other appropriate action upon, the Contractor's Shop Drawings, Product Data, Samples, and similar submittals.~~

§ 9.10 Use of Site

The Contractor shall confine operations at the site to areas permitted by applicable laws, statutes, ordinances, codes, rules and regulations, lawful orders of public authorities, and the Contract Documents and shall not unreasonably encumber the site with materials or equipment.

§ 9.11 Cutting and Patching

The Contractor shall be responsible for cutting, fitting, or patching required to complete the Work or to make its parts fit together properly.

§ 9.12 Cleaning Up

The Contractor shall keep the premises and surrounding area free from accumulation of waste materials and rubbish caused by operations under the Contract. At completion of the Work, the Contractor shall remove waste materials, rubbish, the Contractor's tools, construction equipment, machinery, and surplus material from and about the Project.

§ 9.13 Access to Work

The Contractor shall provide the Owner ~~and Architect~~ with access to the Work in preparation and progress wherever located.

§ 9.14 Royalties, Patents and Copyrights

The Contractor shall pay all royalties and license fees. The Contractor shall defend suits or claims for infringement of copyrights and patent rights and shall hold the Owner ~~and Architect~~ harmless from loss on account thereof, but shall not be responsible for defense or loss when a particular design, process, or product of a particular manufacturer or manufacturers is required by the Contract Documents or where the copyright violations are contained in Drawings, Specifications or other documents prepared by the Owner ~~or Architect~~. However, if an infringement of a copyright or patent is discovered by, or made known to, the Contractor, the Contractor shall be responsible for the loss unless the information is promptly furnished to the Owner-Architect.

§ 9.15 Indemnification

§ 9.15.1 To the fullest extent permitted by law, the Contractor shall indemnify and hold harmless the Owner, ~~Architect, Architect's Owner's~~ consultants, and agents and employees of any of them from and against claims, damages, losses and expenses, including but not limited to attorneys' fees, arising out of or resulting from performance of the Work, provided that such claim, damage, loss, or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself), but only to the extent caused by the negligent acts or omissions of the Contractor, a Subcontractor, anyone directly or indirectly employed by them, or anyone for whose acts they may be liable, regardless of whether or not such claim, damage, loss, or expense is caused in part by a party indemnified hereunder. Such obligation shall not be construed to negate, abridge, or reduce other rights or obligations of indemnity which would otherwise exist as to a party or person described in this Section 9.15.1.

§ 9.15.2 In claims against any person or entity indemnified under this Section 9.15 by an employee of the Contractor, a Subcontractor, anyone directly or indirectly employed by them, or anyone for whose acts they may be liable, the indemnification obligation under Section 9.15.1 shall not be limited by a limitation on amount or type of damages, compensation or benefits payable by or for the Contractor or Subcontractor under workers' compensation acts, disability benefit acts or other employee benefit acts.

ARTICLE 10 — ARCHITECT

~~§ 10.1 The Architect will provide administration of the Contract as described in the Contract Documents and will be an Owner's representative during construction, until the date the Architect issues the final Certificate for Payment. The Architect will have authority to act on behalf of the Owner only to the extent provided in the Contract Documents, unless otherwise modified in writing in accordance with other provisions of the Contract.~~

~~§ 10.2 Duties, responsibilities, and limitations of authority of the Architect as set forth in the Contract Documents shall not be restricted, modified, or extended without written consent of the Owner, Contractor, and Architect. Consent shall not be unreasonably withheld.~~

~~§ 10.3 The Architect will visit the site at intervals appropriate to the stage of the construction to become generally familiar with the progress and quality of the portion of the Work completed, and to determine in general, if the Work observed is being performed in a manner indicating that the Work, when fully completed, will be in accordance with the Contract Documents. However, the Architect will not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. The Architect will not have control over, charge of, or responsibility for the construction means, methods, techniques, sequences, or procedures, or for safety precautions and programs in connection with the Work, since these are solely the Contractor's rights and responsibilities under the Contract Documents.~~

~~§ 10.4 On the basis of the site visits, the Architect will keep the Owner reasonably informed about the progress and quality of the portion of the Work completed, and promptly report to the Owner (1) known deviations from the Contract Documents, (2) known deviations from the most recent construction schedule submitted by the Contractor, and (3) defects and deficiencies observed in the Work. The Architect will not be responsible for the Contractor's failure to perform the Work in accordance with the requirements of the Contract Documents. The Architect will not have control over or charge of and will not be responsible for acts or omissions of the Contractor, Subcontractors, or their agents or employees, or any other persons or entities performing portions of the Work.~~

~~§ 10.5 Based on the Architect's evaluations of the Work and of the Contractor's Applications for Payment, the Architect will review and certify the amounts due the Contractor and will issue Certificates for Payment in such amounts.~~

~~§ 10.6 The Architect has authority to reject Work that does not conform to the Contract Documents and to require inspection or testing of the Work.~~

~~§ 10.7 The Architect will review and approve or take other appropriate action upon, the Contractor's submittals such as Shop Drawings, Product Data, and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents.~~

~~§ 10.8 The Architect will interpret and decide matters concerning performance under, and requirements of, the Contract Documents on written request of either the Owner or Contractor. The Architect will make initial decisions on all claims, disputes, and other matters in question between the Owner and Contractor but will not be liable for results of any interpretations or decisions rendered in good faith.~~

~~§ 10.9 The Architect's decisions on matters relating to aesthetic effect will be final if consistent with the intent expressed in the Contract Documents.~~

ARTICLE 11 SUBCONTRACTORS

~~§ 11.1 A Subcontractor is a person or entity who has a direct contract with the Contractor to perform a portion of the Work at the site.~~

~~§ 11.2 Unless otherwise stated in the Contract Documents, the Contractor, as soon as practicable after award of the Contract, shall notify the Owner and Architect of the Subcontractors or suppliers proposed for each of the principal portions of the Work. The Contractor shall not contract with any Subcontractor or supplier to whom the Owner or Architect has made reasonable written objection within ten days after receipt of the Contractor's list of Subcontractors and suppliers. If the proposed but rejected Subcontractor was reasonably capable of performing the Work, the Contract Sum and Contract Time shall be increased or decreased by the difference, if any, occasioned by such change, and an appropriate Change Order shall be issued before commencement of the substitute Subcontractor's Work. The Contractor shall not be required to contract with anyone to whom the Contractor has made reasonable objection.~~

~~§ 11.3 Contracts between the Contractor and Subcontractors shall (1) require each Subcontractor, to the extent of the Work to be performed by the Subcontractor, to be bound to the Contractor by the terms of the Contract Documents, and to assume toward the Contractor all the obligations and responsibilities, including the responsibility for safety of~~

the Subcontractor's Work, which the Contractor, by the Contract Documents, assumes toward the Owner and Architect, and (2) allow the Subcontractor the benefit of all rights, remedies and redress against the Contractor that the Contractor, by these Contract Documents, has against the Owner.

ARTICLE 12 CONSTRUCTION BY OWNER OR BY SEPARATE CONTRACTORS

§ 12.1 The term "Separate Contractor(s)" shall mean other contractors retained by the Owner under separate agreements. The Owner reserves the right to perform construction or operations related to the Project with the Owner's own forces, and with Separate Contractors retained under Conditions of the Contract substantially similar to those of this Contract, including those provisions of the Conditions of the Contract related to insurance and waiver of subrogation.

§ 12.2 The Contractor shall afford the Owner and Separate Contractors reasonable opportunity for introduction and storage of their materials and equipment and performance of their activities, and shall connect and coordinate the Contractor's activities with theirs as required by the Contract Documents.

§ 12.3 The Owner shall be reimbursed by the Contractor for costs incurred by the Owner which are payable to a Separate Contractor because of delays, improperly timed activities, or defective construction of the Contractor. The Owner shall be responsible to the Contractor for costs incurred by the Contractor because of delays, improperly timed activities, damage to the Work, or defective construction of a Separate Contractor.

ARTICLE 13 CHANGES IN THE WORK

§ 13.1 By appropriate Modification, changes in the Work may be accomplished after execution of the Contract. The Owner, without invalidating the Contract, may order changes in the Work within the general scope of the Contract consisting of additions, deletions, or other revisions, with the Contract Sum and Contract Time being adjusted accordingly. Such changes in the Work shall be authorized by written Change Order signed by the Owner, and Contractor, and Architect, or by written Construction Change Directive signed by the Owner and Architect. Upon issuance of the Change Order or Construction Change Directive, the Contractor shall proceed promptly with such changes in the Work, unless otherwise provided in the Change Order or Construction Change Directive.

§ 13.2 Adjustments in the Contract Sum and Contract Time resulting from a change in the Work shall be determined by mutual agreement of the parties or, in the case of a Construction Change Directive signed only by the Owner and Architect, by the Contractor's cost of labor, material, equipment, and reasonable overhead and profit, unless the parties agree on another method for determining the cost or credit. Pending final determination of the total cost of a Construction Change Directive, the Contractor may request payment for Work completed pursuant to the Construction Change Directive. The Architect will make an interim determination of the amount of payment due for purposes of certifying the Contractor's monthly Application for Payment. When the Owner and Contractor agree on adjustments to the Contract Sum and Contract Time arising from a Construction Change Directive, the Architect will prepare a Change Order.

~~§ 13.3 The Architect will have authority to order minor changes in the Work not involving adjustment in the Contract Sum or extension of the Contract Time and not inconsistent with the intent of the Contract Documents. Such changes shall be effected by written order and shall be binding on the Owner and Contractor. The Contractor shall carry out such written orders promptly. If the Contractor believes that the proposed minor change in the Work will affect the Contract Sum or Contract Time, the Contractor shall notify the Architect and shall not proceed to implement the change in the Work.~~

§ 13.4 If concealed or unknown physical conditions are encountered at the site that differ materially from those indicated in the Contract Documents or from those conditions ordinarily found to exist, the Contract Sum and Contract Time shall be equitably adjusted as mutually agreed between the Owner and Contractor; provided that the Contractor provides notice to the Owner and Architect promptly and before conditions are disturbed.

ARTICLE 14 TIME

§ 14.1 Time limits stated in the Contract Documents are of the essence of the Contract. By executing this Agreement, the Contractor confirms that the Contract Time is a reasonable period for performing the Work.

§ 14.2 Unless otherwise provided, Contract Time is the period of time, including authorized adjustments, allotted in the Contract Documents for Substantial Completion of the Work.

§ 14.3 The term "day" as used in the Contract Documents shall mean calendar day unless otherwise specifically defined.

§ 14.4 The date of Substantial Completion is the date certified by the Owner/Architect in accordance with Section 15.6.3.

§ 14.5 If the Contractor is delayed at any time in the commencement or progress of the Work by (1) changes ordered in the Work; or (2) by labor disputes, fire, unusual delay in deliveries, abnormal adverse weather conditions not reasonably anticipatable, unavoidable casualties, or any causes beyond the Contractor's control; or (3) by other causes that the Contractor asserts, and the Architect determines, justify delay, then the Contract Time shall be extended for such reasonable time as the Architect/Owner may determine, subject to the provisions of Article 21.

ARTICLE 15 PAYMENTS AND COMPLETION

§ 15.1 Schedule of Values

§ 15.1.1 Where the Contract is based on a Stipulated Sum or the Cost of the Work with a Guaranteed Maximum Price pursuant to Section 3.2 or 3.4, the Contractor shall submit a schedule of values to the Owner/Architect before the first Application for Payment, allocating the entire Stipulated Sum or Guaranteed Maximum Price to the various portions of the Work. The schedule of values shall be prepared in the form, and supported by the data to substantiate its accuracy required by the Architect/Owner. This schedule of values shall be used as a basis for reviewing the Contractor's Applications for Payment.

§ 15.1.2 The allocation of the Stipulated Sum or Guaranteed Maximum Price under this Section 15.1 shall not constitute a separate stipulated sum or guaranteed maximum price for each individual line item in the schedule of values.

~~§ 15.2 Control Estimate~~

~~§ 15.2.1 Where the Contract Sum is the Cost of the Work, plus the Contractor's Fee without a Guaranteed Maximum Price pursuant to Section 3.3, the Contractor shall prepare and submit to the Owner a Control Estimate within 14 days of executing this Agreement. The Control Estimate shall include the estimated Cost of the Work plus the Contractor's Fee.~~

~~§ 15.2.2 The Control Estimate shall include:~~

- ~~1. the documents enumerated in Article 6, including all Modifications thereto;~~
- ~~2. a list of the assumptions made by the Contractor in the preparation of the Control Estimate to supplement the information provided by the Owner and contained in the Contract Documents;~~
- ~~3. a statement of the estimated Cost of the Work organized by trade categories or systems and the Contractor's Fee;~~
- ~~4. a project schedule upon which the Control Estimate is based, indicating proposed Subcontractors, activity sequences and durations, milestone dates for receipt and approval of pertinent information, schedule of shop drawings and samples, procurement and delivery of materials or equipment, the Owner's occupancy requirements, and the date of Substantial Completion; and~~
- ~~5. a list of any contingency amounts included in the Control Estimate for further development of design and construction.~~

~~§ 15.2.3 When the Control Estimate is acceptable to the Owner and Architect, the Owner shall acknowledge it in writing. The Owner's acceptance of the Control Estimate does not imply that the Control Estimate constitutes a Guaranteed Maximum Price.~~

~~§ 15.2.4 The Contractor shall develop and implement a detailed system of cost control that will provide the Owner and Architect with timely information as to the anticipated total Cost of the Work. The cost control system shall compare the Control Estimate with the actual cost for activities in progress and estimates for uncompleted tasks and proposed changes. This information shall be reported to the Owner, in writing, no later than the Contractor's first Application for Payment and shall be revised and submitted with each Application for Payment.~~

~~§ 15.2.5 The Owner shall authorize preparation of revisions to the Contract Documents that incorporate the agreed-upon assumptions contained in the Control Estimate. The Owner shall promptly furnish such revised Contract Documents to the Contractor. The Contractor shall notify the Owner and Architect of any inconsistencies between the Control Estimate and the revised Contract Documents.~~

§ 15.3 Applications for Payment

§ 15.3.1 At least ten days before the date established for each progress payment, the Contractor shall submit to the ~~Architect~~ Owner an itemized Application for Payment prepared in accordance with the schedule of values, if required under Section 15.1, for completed portions of the Work. The application shall be notarized, if required; be supported by all data substantiating the Contractor's right to payment that the Owner ~~or Architect~~ require; shall reflect retainage if provided for in the Contract Documents; and include any revised cost control information required by Section 15.2.4. Applications for Payment shall not include requests for payment for portions of the Work for which the Contractor does not intend to pay a Subcontractor or ~~supplier, unless~~ supplier unless such Work has been performed by others whom the Contractor intends to pay.

~~§ 15.3.2 With each Application for Payment where the Contract Sum is based upon the Cost of the Work, or the Cost of the Work with a Guaranteed Maximum Price, the Contractor shall submit payrolls, petty cash accounts, receipted invoices or invoices with check vouchers attached, and any other evidence required by the Owner to demonstrate that cash disbursements already made by the Contractor on account of the Cost of the Work equal or exceed progress payments already received by the Contractor plus payrolls for the period covered by the present Application for Payment, less that portion of the progress payments attributable to the Contractor's Fee.~~

§ 15.3.3 Payments shall be made on account of materials and equipment delivered and suitably stored at the site for subsequent incorporation in the Work. If approved in advance by the Owner, payment may similarly be made for materials and equipment stored, and protected from damage, off the site at a location agreed upon in writing.

§ 15.3.4 The Contractor warrants that title to all Work covered by an Application for Payment will pass to the Owner no later than the time of payment. The Contractor further warrants that upon submittal of an Application for Payment all Work for which Certificates for Payment have been previously issued and payments received from the Owner shall, to the best of the Contractor's knowledge, information and belief, be free and clear of liens, claims, security interests or other encumbrances adverse to the Owner's interests.

§ 15.4 Certificates for Payment

§ 15.4.1 The Architect will, within seven days after receipt of the Contractor's Application for Payment, either issue to the Owner a Certificate for Payment, with a copy to the Contractor, for such amount as the Architect determines is properly due, or notify the Contractor and Owner of the Architect's reasons for withholding certification in whole or in part as provided in Section 15.4.3.

§ 15.4.2 The issuance of a Certificate for Payment will constitute a representation by the Architect to the Owner, based on the Architect's evaluations of the Work and the data in the Application for Payment, that, to the best of the Architect's knowledge, information, and belief, the Work has progressed to the point indicated, the quality of the Work is in accordance with the Contract Documents, and the Contractor is entitled to payment in the amount certified. The foregoing representations are subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to results of subsequent tests and inspections, to correction of minor deviations from the Contract Documents prior to completion and to specific qualifications expressed by the Architect. However, the issuance of a Certificate for Payment will not be a representation that the Architect has (1) made exhaustive or continuous on-site inspections to check the quality or quantity of the Work; (2) reviewed construction means, methods, techniques, sequences, or procedures; (3) reviewed copies of requisitions received from Subcontractors and suppliers and other data requested by the Owner to substantiate the Contractor's right to payment; or (4) made examination to ascertain how or for what purpose the Contractor has used money previously paid on account of the Contract Sum.

§ 15.4.3 The Architect may withhold a Certificate for Payment in whole or in part, to the extent reasonably necessary to protect the Owner, if in the Architect's opinion the representations to the Owner required by Section 15.4.2 cannot be made. If the Architect is unable to certify payment in the amount of the Application, the Architect will notify the Contractor and Owner as provided in Section 15.1.1. If the Contractor and the Architect cannot agree on a revised amount, the Architect will promptly issue a Certificate for Payment for the amount for which the

Architect is able to make such representations to the Owner. The Architect may also withhold a Certificate for Payment or, because of subsequently discovered evidence, may nullify the whole or a part of a Certificate for Payment previously issued, to such extent as may be necessary in the Architect's opinion to protect the Owner from loss for which the Contractor is responsible, including loss resulting from acts and omissions described in Section 9.2.2, because of

- .1 — defective Work not remedied;
- .2 — third party claims filed or reasonable evidence indicating probable filing of such claims unless security acceptable to the Owner is provided by the Contractor;
- .3 — failure of the Contractor to make payments properly to Subcontractors or suppliers for labor, materials or equipment;
- .4 — reasonable evidence that the Work cannot be completed for the unpaid balance of the Contract Sum;
- .5 — damage to the Owner or a Separate Contractor;
- .6 — reasonable evidence that the Work will not be completed within the Contract Time and that the unpaid balance would not be adequate to cover actual or liquidated damages for the anticipated delay;
- or
- .7 — repeated failure to carry out the Work in accordance with the Contract Documents.

§ 15.4.4 When either party disputes the Architect's decision regarding a Certificate for Payment under Section 15.4.3, in whole or in part, that party may submit a Claim in accordance with Article 21.

§ 15.5 Progress Payments

§ 15.5.1 The Contractor shall pay each Subcontractor, no later than seven days after receipt of payment from the Owner, the amount to which the Subcontractor is entitled, reflecting percentages actually retained from payments to the Contractor on account of the Subcontractor's portion of the Work. The Contractor shall, by appropriate agreement with each Subcontractor, require each Subcontractor to make payments to sub-subcontractors in a similar manner.

§ 15.5.2 Neither the Owner nor Architect shall not have an obligation to pay or see to the payment of money to a Subcontractor or supplier except as may otherwise be required by law.

§ 15.5.3 A Certificate for Payment, a progress payment, or partial or entire use or occupancy of the Project by the Owner shall not constitute acceptance of Work not in accordance with the Contract Documents.

§ 15.5.4 Provided the Owner has fulfilled its payment obligations under the Contract Documents, the Contractor shall defend and indemnify the Owner from all loss, liability, damage or expense, including reasonable attorney's fees and litigation expenses, arising out of any lien claim or other claim for payment by any Subcontractor or supplier of any tier. Upon receipt of notice of a lien claim or other claim for payment, the Owner shall notify the Contractor. If approved by the applicable court, when required, the Contractor may substitute a surety bond for the property against which the lien or other claim for payment has been asserted.

§ 15.6 Substantial Completion

§ 15.6.1 Substantial Completion is the stage in the progress of the Work when the Work or designated portion thereof is sufficiently complete in accordance with the Contract Documents so that the Owner can occupy or utilize the Work for its intended use.

§ 15.6.2 When the Contractor considers that the Work, or a portion thereof which the Owner agrees to accept separately, is substantially complete, the Contractor shall prepare and submit to the Architect-Owner a comprehensive list of items to be completed or corrected prior to final payment. Failure to include an item on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents.

§ 15.6.3 Upon receipt of the Contractor's list, the Architect-Owner will make an inspection to determine whether the Work or designated portion thereof is substantially complete. When the Architect-Owner determines that the Work or designated portion thereof is substantially complete, the Architect-Owner will issue a Certificate of Substantial Completion which shall establish the date of Substantial Completion; establish responsibilities of the Owner and Contractor for security, maintenance, heat, utilities, damage to the Work and insurance; and fix the time within which the Contractor shall finish all items on the list accompanying the Certificate. Warranties required by

the Contract Documents shall commence on the date of Substantial Completion of the Work or designated portion thereof unless otherwise provided in the Certificate of Substantial Completion.

§ 15.6.4 The Certificate of Substantial Completion shall be submitted to the ~~Owner and Contractor~~ for ~~their~~ its written acceptance of responsibilities assigned to them in the Certificate. Upon such acceptance and consent of surety, if any, the Owner shall make payment of retainage applying to the Work or designated portion thereof. Such payment shall be adjusted for Work that is incomplete or not in accordance with the requirements of the Contract Documents.

§ 15.7 Final Completion and Final Payment

§ 15.7.1 Upon receipt of the Contractor's notice that the Work is ready for final inspection and acceptance and upon receipt of a final Application for Payment, the ~~Architect-Owner~~ will promptly make such inspection and, when the ~~Owner-Architect~~ finds the Work acceptable under the Contract Documents and the Contract fully performed, the ~~Architect-Owner shall make final payment in accordance with this agreement, will promptly issue a final Certificate for Payment stating that to the best of the Architect's knowledge, information and belief, and on the basis of the Architect's on-site visits and inspections, the Work has been completed in accordance with the Contract Documents and that the entire balance found to be due the Contractor and noted in the final Certificate is due and payable. The Architect's final Certificate for Payment will constitute a further representation that conditions stated in Section 15.7.2 as precedent to the Contractor's being entitled to final payment have been fulfilled.~~

§ 15.7.2 Final payment shall not become due until the Contractor has delivered to the Owner a complete release of all liens arising out of this Contract or receipts in full covering all labor, materials and equipment for which a lien could be filed, or a bond satisfactory to the Owner to indemnify the Owner against such lien. If such lien remains unsatisfied after payments are made, the Contractor shall refund to the Owner all money that the Owner may be compelled to pay in discharging such lien, including costs and reasonable attorneys' fees.

§ 15.7.3 The making of final payment shall constitute a waiver of claims by the Owner except those arising from

1. liens, claims, security interests or encumbrances arising out of the Contract and unsettled;
2. failure of the Work to comply with the requirements of the Contract Documents;
3. terms of special warranties required by the Contract Documents; or
4. audits performed by the Owner, if permitted by the Contract Documents, after final payment.

§ 15.7.4 Acceptance of final payment by the Contractor, a Subcontractor or supplier shall constitute a waiver of claims by that payee except those previously made in writing and identified by that payee as unsettled at the time of the final Application for Payment.

§ 15.8 The Contractor expressly undertakes to defend the Owner, officers, directors and employees, at the Contractor's sole expense, against any actions, lawsuits, or proceedings brought against the Owner as a result of liens filed against the Work, the site of any of the Work, the Project site, and any improvements thereon, payments due the Contractor, or any portion of the Owner's property (collectively referred to in this Section 14.6 as "liens"). The Contractor hereby agrees to indemnify and hold the Owner and officers, directors and employees, harmless from and against any such liens or claims of lien and agrees to pay any judgment or lien resulting from any such actions, lawsuits, or proceedings.

§ 15.9 The Owner shall release any payments withheld due to a lien or claim of lien if the Contractor obtains security acceptable to the Owner or a lien bond that is (i) issued by a surety acceptable to the Owner, (ii) in form and substance satisfactory to the Owner, and (iii) in an amount not less than two hundred (200) percent (200%) of such lien claim or such other amount as required by applicable law. By posting a lien bond or other acceptable security, however, the Contractor shall not be relieved of any responsibilities or obligations under this Section 15.8, including, without limitation, the duty to defend and indemnify the Owner. The cost of any premiums incurred in connection with such bonds and security shall be the sole responsibility of the Contractor and shall not be part of, or cause any adjustment to, the Contract Sum.

§ 15.10 Notwithstanding the foregoing, the Owner reserves the right to settle any disputed mechanic's or material supplier's lien claim by payments to the lien claimant or by such other means as the Owner, in the Owner's sole and absolute discretion, determines is the most economical or advantageous method of settling the dispute. The Contractor shall promptly reimburse the Owner, upon demand, for any payments so made.

ARTICLE 16 PROTECTION OF PERSONS AND PROPERTY

§ 16.1 Safety Precautions and Programs

The Contractor shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the performance of the Contract. The Contractor shall take reasonable precautions for safety of, and shall provide reasonable protection to prevent damage, injury, or loss to

- .1 employees on the Work and other persons who may be affected thereby;
- .2 the Work and materials and equipment to be incorporated therein, whether in storage on or off the site, under care, custody, or control of the Contractor, a Subcontractor, or a Sub-subcontractor; and
- .3 other property at the site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation, or replacement in the course of construction.

The Contractor shall comply with, and give notices required by, applicable laws, statutes, ordinances, codes, rules and regulations, and lawful orders of public authorities bearing on safety of persons and property and their protection from damage, injury, or loss. The Contractor shall promptly remedy damage and loss to property caused in whole or in part by the Contractor, a Subcontractor, a sub-subcontractor, or anyone directly or indirectly employed by any of them, or by anyone for whose acts they may be liable and for which the Contractor is responsible under Sections 16.1.2 and 16.1.3. The Contractor may make a claim for the cost to remedy the damage or loss to the extent such damage or loss is attributable to acts or omissions of the Owner or Architect or by anyone for whose acts either of them may be liable, and not attributable to the fault or negligence of the Contractor. The foregoing obligations of the Contractor are in addition to the Contractor's obligations under Section 9.13.

§ 16.2 Hazardous Materials and Substances

§ 16.2.1 The Contractor is responsible for compliance with the requirements of the Contract Documents regarding hazardous materials or substances. If the Contractor encounters a hazardous material or substance not addressed in the Contract Documents, and if reasonable precautions will be inadequate to prevent foreseeable bodily injury or death to persons resulting from a material or substance, including but not limited to asbestos or polychlorinated biphenyl (PCB), encountered on the site by the Contractor, the Contractor shall, upon recognizing the condition, immediately stop Work in the affected area and notify the Owner and Architect of the condition. When the material or substance has been rendered harmless, Work in the affected area shall resume upon written agreement of the Owner and Contractor. By Change Order, the Contract Time shall be extended appropriately and the Contract Sum shall be increased in the amount of the Contractor's reasonable additional costs of shutdown, delay, and start-up.

§ 16.2.2 To the fullest extent permitted by law, the Owner shall indemnify and hold harmless the Contractor, Subcontractors, Architect, Architect's consultants, and agents and employees of any of them from and against claims, damages, losses, and expenses, including but not limited to attorneys' fees, arising out of or resulting from performance of the Work in the affected area, if in fact, the material or substance presents the risk of bodily injury or death as described in Section 16.2.1 and has not been rendered harmless, provided that such claim, damage, loss, or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself), except to the extent that such damage, loss, or expense is due to the fault or negligence of the party seeking indemnity.

§ 16.2.3 If, without negligence on the part of the Contractor, the Contractor is held liable by a government agency for the cost of remediation of a hazardous material or substance solely by reason of performing Work as required by the Contract Documents, the Owner shall indemnify the Contractor for all cost and expense thereby incurred.

ARTICLE 17 INSURANCE AND BONDS

§ 17.1 Contractor's Insurance

§ 17.1.1 The Contractor shall purchase and maintain insurance of the types and limits of liability, containing the endorsements, and subject to the terms and conditions, as described in this Section 17.1 or elsewhere in the Contract Documents. The Contractor shall purchase and maintain the insurance required by this Agreement from an insurance company or insurance companies lawfully authorized to issue insurance in the jurisdiction where the Project is located. § 17.1.4 The Contractor may achieve the required limits and coverage for Commercial General Liability and Automobile Liability through a combination of primary and excess or umbrella liability insurance, provided such primary and excess or umbrella insurance policies result in the same or greater coverage as those required under Section 17.1.2 and 17.1.3, and in no event shall any excess or umbrella liability insurance provide narrower coverage than the primary policy. The excess policy shall not require the exhaustion of the underlying limits only through the actual payment by the underlying insurers.

An additional certificate evidencing continuation of liability coverage, including coverage for completed operations, shall be submitted with the final Application for Payment and thereafter upon renewal or replacement of such

Upon receipt of notice from the Contractor, the Owner shall, unless the lapse in coverage arises from an act or omission of the Owner, have the right to stop the Work until the lapse in coverage has been cured by the procurement of replacement coverage by the Contractor. The furnishing of notice by the Contractor shall not relieve the Contractor of any contractual obligation to provide any required coverage.

§ 17.1.14 Other Insurance Provided by the Contractor

(List below any other insurance coverage to be provided by the Contractor and any applicable limits.)

Coverage	Limits

§ 17.1.15 If Contractor should fail to purchase or maintain any of the insurance required under this Section 16, Owner shall be entitled to recover all damages arising from said failure, in addition to all other rights and remedies, even if Owner has itself obtained insurance to cover the same risks.

The Owner shall be responsible for purchasing and maintaining the Owner's usual liability insurance.

§ 17.2.2 Property Insurance

§ 17.2.2.1 The Owner shall purchase and maintain, from an insurance company or insurance companies lawfully authorized to issue insurance in the jurisdiction where the Project is located, property insurance written on a builder's risk "all-risks" completed value or equivalent policy form and sufficient to cover the total value of the entire Project on a replacement cost basis. The Owner's property insurance coverage shall be no less than the amount of the initial Contract Sum, plus the value of subsequent Modifications and labor performed or materials or equipment supplied by others. The property insurance shall be maintained until Substantial Completion and thereafter as provided in Section 17.2.2.2, unless otherwise provided in the Contract Documents or otherwise agreed in writing by the parties to this Agreement. This insurance shall include the interests of the Owner, Contractor, Subcontractors, and Sub-subcontractors in the Project as insureds. This insurance shall include the interests of mortgagees as loss payees.

§ 17.2.2.2 Unless the parties agree otherwise, upon Substantial Completion, the Owner shall continue the insurance required by Section 17.2.2.1 or, if necessary, replace the insurance policy required under Section 17.2.2.1 with

property insurance written for the total value of the Project that shall remain in effect until expiration of the period for correction of the Work set forth in Section 18.4.

§ 17.2.2.3 If the insurance required by this Section 17.2.2 is subject to deductibles or self-insured retentions, the Owner shall be responsible for all loss not covered because of such deductibles or retentions.

§ 17.2.2.4 If the Work involves remodeling an existing structure or constructing an addition to an existing structure, the Owner shall purchase and maintain, until the expiration of the period for correction of Work as set forth in Section 18.4, "all-risks" property insurance, on a replacement cost basis, protecting the existing structure against direct physical loss or damage, notwithstanding the undertaking of the Work. The Owner shall be responsible for all co-insurance penalties.

§ 17.2.2.5 Prior to commencement of the Work, the Owner shall secure the insurance, and provide evidence of the coverage, required under this Section 17.2.2 and, upon the Contractor's request, provide a copy of the property insurance policy or policies required by this Section 17.2.2. The copy of the policy or policies provided shall contain all applicable conditions, definitions, exclusions, and endorsements.

§ 17.2.2.6 Within three (3) business days of the date the Owner becomes aware of an impending or actual cancellation or expiration of any insurance required by this Section 17.2.2, the Owner shall provide notice to the Contractor of such impending or actual cancellation or expiration. Unless the lapse in coverage arises from an act or omission of the Contractor: (1) the Contractor, upon receipt of notice from the Owner, shall have the right to stop the Work until the lapse in coverage has been cured by the procurement of replacement coverage by either the Owner or the Contractor; (2) the Contract Time and Contract Sum shall be equitably adjusted; and (3) the Owner waives all rights against the Contractor, Subcontractors, and Sub-subcontractors to the extent any loss to the Owner would have been covered by the insurance had it not expired or been cancelled. If the Contractor purchases replacement coverage, the cost of the insurance shall be charged to the Owner by an appropriate Change Order. The furnishing of notice by the Owner shall not relieve the Owner of any contractual obligation to provide required insurance.

§ 17.2.2.7 Waiver of Subrogation

§ 17.2.2.7.1 The Owner and Contractor waive all rights against (1) each other and any of their subcontractors, sub-subcontractors, agents, and employees, each of the other; ~~(2) the Architect and Architect's consultants;~~ and ~~(3) Separate Contractors, if any, and any of their subcontractors, sub-subcontractors, agents, and employees,~~ for damages caused by fire, or other causes of loss, to the extent those losses are covered by property insurance required by this Agreement or other property insurance applicable to the Project, except such rights as they have to proceeds of such insurance. ~~The Owner or Contractor, as appropriate, shall require similar written waivers in favor of the individuals and entities identified above from the Architect, Architect's consultants, Separate Contractors, subcontractors, and sub-subcontractors.~~ The policies of insurance purchased and maintained by each person or entity agreeing to waive claims pursuant to this Section 17.2.2.7 shall not prohibit this waiver of subrogation. This waiver of subrogation shall be effective as to a person or entity (1) even though that person or entity would otherwise have a duty of indemnification, contractual or otherwise, (2) even though that person or entity did not pay the insurance premium directly or indirectly, or (3) whether or not the person or entity had an insurable interest in the damaged property.

§ 17.2.2.7.2 If during the Project construction period the Owner insures properties, real or personal or both, at or adjacent to the site by property insurance under policies separate from those insuring the Project, or if after final payment property insurance is to be provided on the completed Project through a policy or policies other than those insuring the Project during the construction period, to the extent permissible by such policies, the Owner waives all rights in accordance with the terms of Section 17.2.2.7.1 for damages caused by fire or other causes of loss covered by this separate property insurance.

§ 17.2.2.8 A loss insured under the Owner's property insurance shall be adjusted by the Owner as fiduciary and made payable to the Owner as fiduciary for the insureds, as their interests may appear, subject to requirements of any applicable mortgage clause. The Owner shall pay the ~~Architect and Contractor~~ ~~their~~ ~~its~~ just shares of insurance proceeds received by the Owner, and by appropriate agreements, written where legally required for validity, the ~~Architect and Contractor~~ shall make payments to their consultants and Subcontractors in similar manner.

NYSDOL Prevailing Wage Rates

see attached

Introduction to the Prevailing Rate Schedule

Information About Prevailing Rate Schedule

This information is provided to assist you in the interpretation of particular requirements for each classification of worker contained in the attached Schedule of Prevailing Rates.

Classification

It is the duty of the Commissioner of Labor to make the proper classification of workers taking into account whether the work is heavy and highway, building, sewer and water, tunnel work, or residential, and to make a determination of wages and supplements to be paid or provided. It is the responsibility of the public work contractor to use the proper rate. If there is a question on the proper classification to be used, please call the district office located nearest the project. District office locations and phone numbers are listed below.

Prevailing Wage Schedules are issued separately for "General Construction Projects" and "Residential Construction Projects" on a county-by-county basis.

General Construction Rates apply to projects such as: Buildings, Heavy & Highway, and Tunnel and Water & Sewer rates.

Residential Construction Rates generally apply to construction, reconstruction, repair, alteration, or demolition of one family, two family, row housing, or rental type units intended for residential use.

Some rates listed in the Residential Construction Rate Schedule have a very limited applicability listed along with the rate. Rates for occupations or locations not shown on the residential schedule must be obtained from the General Construction Rate Schedule. Please contact the local Bureau of Public Work office before using Residential Rate Schedules, to ensure that the project meets the required criteria.

Payrolls and Payroll Records

Contractors and subcontractors are required to establish, maintain, and preserve for not less than six (6) years, contemporaneous, true, and accurate payroll records.

Every contractor and subcontractor shall submit to the Department of Jurisdiction (Contracting Agency), within thirty (30) days after issuance of its first payroll and every thirty (30) days thereafter, a transcript of the original payrolls, subscribed and affirmed as true under penalty of perjury.

Paid Holidays

Paid Holidays are days for which an eligible employee receives a regular day's pay, but is not required to perform work. If an employee works on a day listed as a paid holiday, this remuneration is in addition to payment of the required prevailing rate for the work actually performed.

Overtime

At a minimum, all work performed on a public work project in excess of eight hours in any one day or more than five days in any workweek is overtime. However, the specific overtime requirements for each trade or occupation on a public work project may differ. Specific overtime requirements for each trade or occupation are contained in the prevailing rate schedules.

Overtime holiday pay is the premium pay that is required for work performed on specified holidays. It is only required where the employee actually performs work on such holidays.

The applicable holidays are listed under HOLIDAYS: OVERTIME. The required rate of pay for these covered holidays can be found in the OVERTIME PAY section listings for each classification.

Supplemental Benefits

Particular attention should be given to the supplemental benefit requirements. Although in most cases the payment or provision of supplements is straight time for all hours worked, some classifications require the payment or provision of supplements, or a portion of the supplements, to be paid or provided at a premium rate for premium hours worked. Supplements may also be required to be paid or provided on paid holidays, regardless of whether the day is worked. The Overtime Codes and Notes listed on the particular wage classification will indicate these conditions as required.

Effective Dates

When you review the schedule for a particular occupation, your attention should be directed to the dates above the column of rates. These are the dates for which a given set of rates is effective. The rate listed is valid until the next effective rate change or until the new annual determination which takes effect on July 1 of each year. All contractors and subcontractors are required to pay the current prevailing rates of wages and supplements. If you have any questions please contact the Bureau of Public Work or visit the New York State Department of Labor website (www.labor.ny.gov) for current wage rate information.

Apprentice Training Ratios

The following are the allowable ratios of registered Apprentices to Journey-workers.

For example, the ratio 1:1,1:3 indicates the allowable initial ratio is one Apprentice to one Journeyworker. The Journeyworker must be in place on the project before an Apprentice is allowed. Then three additional Journeyworkers are needed before a second Apprentice is allowed. The last ratio repeats indefinitely. Therefore, three more Journeyworkers must be present before a third Apprentice can be hired, and so on.

Please call Apprentice Training Central Office at (518) 457-6820 if you have any questions.

**Re: Town of Duanesburg
Duanesburg/Delanson Sewer District No. 1
Annual & 5-Year CBS Inspection & Report
Proposal for Engineering Services**

Dear Mr. Parslow:

We are pleased to provide this proposal for engineering services to prepare the Annual and 5-Year Chemical Bulk Storage Spill Prevention Report for the Duanesburg/Delanson Sewer District #1 WWTP. We propose the following scope of engineering services:

A. Base Services

1. PRIME AE will perform a site inspection of the chemical bulk storage tank and chemical transfer area this fall. The Town shall provide access to the wastewater treatment plant.
2. As the more in-depth 5-Year Inspection is due in 2023, PRIME AE will obtain a price quote from at least two firms that perform the tank wall and pipe thickness testing and make a recommendation to the Town of which firm to hire. The costs of the testing will be paid directly to the testing firm by the Town.
3. PRIME AE will discuss any operational changes that may have occurred during the year with the plant operator and take photos of the facilities.
4. The Town will supply copies of the daily visual tank inspection logs and a copy of the current tank registration certificate to PRIME AE.
5. PRIME AE will prepare the Annual Report and provide three (3) bound copies to the Town. The Town Supervisor shall sign the certification page and submit this page along with the report cover and table of contents to NYSDEC.

B. Fee

We propose to provide the aforementioned services for a lump fee not to exceed **\$3,900.00**, which will be billed monthly on a percentage complete basis.

C. Exceptions and Limitations – Town to pay testing firm directly.

Trust is Built.

www.primeeng.com

D. Additional Services

Additional projects and services will be the subject of a mutually agreed and separately executed Change Order. In the event that you request additional routine services that substantively relate to the subject of this Proposal and which in our judgement do not rise to the level of a Change Order or require a new proposal, ("Out-of-Scope Services"), our fees for such services will be based on the time required for the work performed at our standard rates, plus expenses. All such services will be subject to the terms of this Proposal, including PRIME AE's Standard Terms and Conditions, attached hereto.

E. Access to Client Facilities.

In providing the Services, PRIME AE may from time to time need to test, access, or use the Client's systems, applications, or hardware (collectively, "Client Network"). Client shall provide PRIME AE in advance of the commencement of the affected Services with a copy of Client's safety, security, and facilities policies which are applicable to the use of, and access to, the Client Network and PRIME AE shall use commercially reasonable efforts to abide by such communicated policies as appropriate under the circumstances. If compliance with such policies will prevent or impair PRIME AE from performing the Services or its obligations under this Agreement, the Parties shall work in good faith to develop reasonable exceptions to such policies. If such exceptions cannot be agreed upon, the applicable Statement(s) of Work will be modified to excuse PRIME AE's performance of the affected Services. If PRIME AE's adherence to Client's policies increases PRIME AE's costs of providing the Services, PRIME AE shall notify Client of the foregoing and Client shall pay PRIME AE for the increased costs associated with adherence to such policies.

F. Terms & Conditions

Our work under this Proposal shall be performed in accordance with PRIME AE's Standard Terms and Conditions, attached hereto and hereby incorporated herein and made a part of this Proposal for all purposes as if fully set forth herein.

If you agree with this Proposal, please return an executed copy of this Proposal. If you have any questions, please feel free to contact me. We appreciate the opportunity to provide engineering services for the Town of Duaneburg. Thank you for considering us for this work, and if you have any questions or need anything further, please contact me at your convenience.

Sincerely,

1. General. These Standard Terms & Conditions ("ST&C"), together with the accompanying proposal, constitute the full and complete Agreement between PRIME AE Group, Inc. (and its affiliates and subsidiaries) ("PRIME AE") and the entity or person to whom the proposal is addressed ("Client") to perform basic or additional services as set forth in the proposal. PRIME AE and Client may be referred to collectively herein as "the parties", and any one of them may be referred to as "a party". The technical and pricing information in the proposal is the confidential and proprietary property of PRIME AE and shall not be disclosed or made available to third parties without the written consent of PRIME AE. Unless otherwise specified in the proposal, the proposal fees and schedule constitute PRIME AE's best estimate of the charges and time required to complete the project. As the project progresses, site conditions, changes in the law, or other unknown facts or events may dictate revisions in scope and fee. PRIME AE will inform Client of such situations so that proposal revisions can be accomplished. The parties agree to negotiate such revisions in good faith.

2. Performance of Services. PRIME AE's services will be performed in accordance with generally accepted practices and ordinary skill and care of architects, engineers, scientists and/or technical professionals providing similar services at the same time, in the same locale, and under like circumstances ("Standard of Care"). Client agrees that PRIME AE has been engaged to provide professional services only, and that PRIME AE does not owe a fiduciary duty or responsibility to Client. There are no intended third-party beneficiaries to this Agreement. No other warranty, express or implied, is included or intended by the Agreement. PRIME AE is an independent contractor and nothing in this Agreement shall be construed to create a partnership, joint venture, or create a relationship of employer/employee or principal/agent between PRIME AE and Client or its subcontractors or consultants. PRIME AE does not represent or warrant that any permit or approval will be issued by any governmental body in view of the complexity and the frequent changes in applicable rules and regulations and interpretations by authorities.

3. Right of Entry. Client shall be responsible for obtaining all legal right-of-entry, and associated costs, onto properties required by the project.

4. Modification. This Agreement may be changed, amended, added to, superseded, or waived only if both parties specifically agree in writing to such amendment of the Agreement. In the event of any inconsistency between these ST&C and any proposal, contract, purchase order, requisition, notice to proceed, or like document, these ST&C shall govern.

5. Compensation. Fees are quoted for present calendar year and will be subject to escalation on January 1st each year thereafter as determined by PRIME AE. The Client shall pay PRIME AE pursuant to the rates and charges set forth in the proposal. Invoices terms are net cash, due and payable upon receipt of invoice. Full payment of all invoices will be due before release of final deliverables. The Client shall notify PRIME AE in writing of any disputed amount within seven (7) days from date of the invoice, give reasons for the objection, and promptly pay the undisputed amount. If Client fails to make any payment due to PRIME AE for services and expenses within thirty (30) days after receipt of PRIME AE's statement therefor, the amounts due PRIME AE will be increased at the rate of 1.5% per month from said thirtieth day, and in addition, PRIME AE may, upon written notice to Client, suspend services under this Agreement. In the event of a suspension of services, PRIME AE shall have no responsibility to Client for delay or damage caused Client because of such suspension of services. Upon suspension, Client shall pay all undisputed fees before PRIME AE continues any performance of services or delivery of any deliverables. In the event PRIME AE employs the services of any attorney or collection agency to collect any sums due hereunder or to enforce any terms contained herein, Client agrees to pay reasonable attorney's fees and court costs incurred by PRIME AE to collect outstanding fees.

6. Insurance. PRIME AE will maintain workers' compensation insurance as required under the laws of the state in which the services will be performed. PRIME AE agrees to provide at its own expense, Comprehensive General Liability insurance with a combined single limit of \$1,000,000 per occurrence and \$2,000,000 in the aggregate; Professional Liability insurance in the amount of \$1,000,000 per claim and \$2,000,000 in the aggregate; Automobile Liability insurance with a combined single of \$1,000,000 per occurrence; and will, upon request, furnish insurance

certificates to Client reflecting PRIME AE's standard coverages and providing thirty (30) days prior written notice in the event of cancellation in coverage.

7. Confidentiality. PRIME AE will hold confidential all business and technical information obtained from Client or generated in performing services under this Agreement, except to the extent required for: (1) performance of services under this Agreement; (2) compliance with professional standards of conduct; (3) the preservation of the public safety, health, and welfare; (4) compliance with any court order, statute, law, or governmental directive; and/or (5) protection of PRIME AE against claims or liabilities arising from the performance of services under this Agreement. PRIME AE's obligations hereunder shall not apply to information in the public domain or lawfully obtained on a non-confidential basis from others.

8. Ownership of Documents. All reports, notes, drawings, specifications, data, intellectual property, inventions, discoveries, processes, calculations, and other documents, including those in electronic form, obtained, created or prepared by PRIME AE in performing services under this Agreement are instruments of PRIME AE's service ("Instruments"), and all rights, copyrights, titles and interests in the Instruments shall remain PRIME AE's property, whether or not the project is completed. Client agrees not to use Instruments for marketing purposes, for projects other than the project for which the documents were prepared by PRIME AE, for future modifications to this project, or for any other purpose than the purpose intended under this Agreement, without first obtaining PRIME AE's express written permission for a written specific use license. Any reuse or distribution of Instruments to third parties, without such express written specific use license will be at Client's sole risk and without liability to PRIME AE or its employees, affiliates, subsidiaries, independent contractors, and subcontractors. Client shall indemnify, defend, and hold harmless PRIME AE and its employees, affiliates, subsidiaries, independent contractors, and subcontractors from all claims, damages, losses, and expenses, including attorney's fees, arising out of or resulting from use without a written special use license. Any such verification or project-specific adaptation shall entitle PRIME AE to additional compensation.

9. Suspension of Services and Termination. Either party may, at any time, suspend further services or terminate this Agreement. Suspension or termination shall be by written notice. PRIME AE may terminate this Agreement immediately upon giving Client a written notice of termination upon occurrence of any of the following: (a) an event of Force Majeure has been continuing during more than thirty (30) days or (b) prevented, hindered, or delayed performance due to disease, epidemic, pandemic, quarantine, or acts of government (foreign or domestic). Client agrees to compensate PRIME AE for all services performed and commitments made prior to the suspension or termination, together with reimbursable expenses including those of subcontractors, subconsultants and vendors. Where payment is based on lump sum contract, Client agrees that the final invoice after Client's suspension or termination of services will be based on the percentage of work completed as of the date of suspension or termination, plus reasonable suspension or termination charges including, but not limited to, personnel and equipment rescheduling and all other related costs and charges directly attributable to suspension or termination. In the event of suspension of services or termination by Client, PRIME AE shall have no liability to Client or others. Client agrees to indemnify, defend and hold PRIME AE harmless from any claim or liability resulting from any suspension or termination.

10. Force Majeure. Except for Client's obligation to pay for services rendered by PRIME AE, including those of its' subcontractors, subconsultants and vendors, no liability will attach to either party from delay in performance or nonperformance caused by circumstances or events beyond the reasonable control of the party affected, including, but not limited to, acts of God, cyber-attacks, disease, epidemic, pandemic, quarantine, acts of government (foreign or domestic), fire, flood, unanticipated site, building or subsurface conditions, regulatory permitting, terrorism, explosion, war, request or intervention of a government authority (foreign or domestic), court order (whether at law or in equity), labor relations, accidents, delays or inability to obtain materials, equipment, fuel or transportation. Delays within the scope of this article that cumulatively exceed thirty (30) calendar days shall, at the option of either party, make this Agreement subject to termination or renegotiation. Should Client require PRIME AE to maintain its

personnel and equipment available during the delay period, Client agrees to compensate PRIME AE for additional labor, equipment, and any and all other costs associated with PRIME AE in maintaining its personnel during the delay period.

11. Mutual Waiver of Consequential Damages.

Neither Client nor PRIME AE, nor their affiliates or subsidiaries, nor the officers, directors, agents, employees, or their subcontractors, subconsultants, or vendors, shall be liable to the other, third parties, or shall make any claim for any incidental, indirect, special, collateral, exemplary, punitive or consequential damages arising out of, or connected in any way to the services or this Agreement, whether the action in which recovery of damages is sought is based upon contract, tort, including, to the greatest extent permitted by law, the sole, concurrent or other negligence, whether active or passive, strict liability, breach of contract and breach of warranty. Consequential damages include, but is not limited to, damages related to loss of use, loss of profits, loss of income, loss of reputation, unrealized savings or diminution of property value and shall apply to any cause of action.

12. Design Services During Construction (DSDC).

If PRIME AE provides DSDC during the construction phase of the project, it is understood that the purpose of such services, including project site visits, will be to determine, in general, if construction is proceeding in a manner indicating that the completed work of others will generally conform to the contract documents. PRIME AE shall not, during such visits or as a result of observations of construction, supervise, direct, or have control over others' work nor shall PRIME AE have authority over, or responsibility for, the means, methods, sequences or procedures of construction selected by others or safety precautions and programs incidental to the work of others or for any failure of others to comply with laws, rules, regulations, ordinances, codes or orders applicable to others furnishing and performing their work. PRIME AE does not guarantee the performance of the construction work or contract by others and does not assume responsibility for others' failure to furnish and perform their work. If PRIME AE's DSDC includes shop drawing review or requests for information as set forth in PRIME AE's proposal, PRIME AE will review (or take other appropriate action with respect to) shop drawings,

samples, and other data which PRIME AE's proposal and scope of services require PRIME AE to review, but only for conformance with PRIME AE's design concept of the project and compliance with the information set forth in contract documents. Such review or other actions shall not extend to means, methods, techniques, sequences, or procedures of manufacture (including the design of manufactured products) or construction, or to safety precautions and programs incident thereto. PRIME AE's review or other actions shall not constitute approval of construction, an assembly or product of which an item is a component, nor shall it relieve others of (a) their obligations regarding review and approval of any such submittals, and (b) their exclusive responsibility for the means, methods, sequences and procedures of constructions, including safety of construction. If DSDC is not included in the proposal, and the Client requests DSDC from PRIME AE, PRIME AE shall be entitled to additional compensation at its standard rates and fees.

13. Certifications. PRIME AE shall not be required to sign any documents, no matter by whom requested, including for Client to obtain financing, that would result in PRIME AE's having to provide certification, a guarantee, or a warranty, or agree to terms that are in conflict with these ST&C.

14. Reliance. PRIME AE shall be entitled to rely, without limitation or liability, on the accuracy and completeness of any and all information provided by Client, Client's employees, representatives, agents, independent contractors, construction managers, consultants and contractors, and information from public records, without the need for PRIME AE's independent verification. Any opinions rendered by PRIME AE pursuant to this Agreement are for the sole and exclusive use of Client, and are not intended for the use of, or reliance upon, by any third parties without the prior written approval of PRIME AE. Client agrees to indemnify, defend and hold harmless PRIME AE to the fullest extent permitted by law for any claims, losses, or damages allegedly suffered by PRIME AE or others due to PRIME AE's reliance on such information contemplated under this Section 14.

15. Opinion of Probable Costs. When required as part of its scope of services outlined in its proposal, PRIME AE will furnish opinions of probable cost, but does not

guarantee the accuracy of such estimates. Opinions of probable cost, financial evaluations, feasibility studies, economic analyses of alternate solutions, and utilitarian considerations of operations and maintenance costs prepared by PRIME AE hereunder will be made on the basis of PRIME AE's experience and qualifications and will represent PRIME AE's judgment in accordance with the Standard of Care. However, users of the probable cost opinions must recognize that PRIME AE does not have control over the cost of labor, material, equipment, or services furnished by others or over market conditions or contractors' methods of determining prices or performing the services.

16. Limitation of Liability. Client and PRIME AE have discussed the risks, rewards, and anticipated outcome of the project and an estimated total fee for PRIME AE's scope of services, and agree that to the fullest extent permitted by law, the total liability, in the aggregate, of PRIME AE, its' parent company, officers, directors, employees, agents, and consultants to Client and anyone claiming by, through or under Client, for any and all injuries, claims, losses, expenses, or damages whatsoever arising out of or in any way related to PRIME AE's scope of services, the project or this Agreement, from any cause or causes whatsoever, including but not limited to, negligence, errors, omissions, strict liability or contract, regulatory fines or court judgments shall be limited to ~~the~~ ^{an} amount of ~~\$50,000 or PRIME AE's fee, whichever is greater.~~ PRIME AE's calculation of fees, however set forth in the proposal, is based upon and conditioned on Client's acceptance of and enforcement before a mediator or a court of this limitation of liability. A request by Client to increase this limitation of liability must be made to PRIME AE in writing prior to Client's acceptance of the proposal. PRIME AE may increase the limit of liability in consideration of additional payment by Client. The increased limit of liability will become effective only upon a specific modification to these ST&C by an authorized representative of PRIME AE.

17. Dispute Resolution. If a dispute arises out of or relates to this Agreement or breach thereof, the parties will attempt in good faith to resolve the dispute through negotiation. If the dispute is not resolved by these negotiations, prior to the initiation of legal proceedings, Client and PRIME AE agree to submit all claims and disputes arising out of this Agreement to non-binding

mediation with a mutually agreed upon mediator. The parties agree that they will participate in the mediation in good faith, that they will share equally in its costs, and that neither party will commence a civil action with respect to the matters submitted to mediation until after the completion of the initial mediation session. This provision shall survive completion or termination of this Agreement; however, neither party shall seek mediation of any claim or dispute arising out of this Agreement beyond the period of time that would bar the initiation of legal proceedings to litigate such claim or dispute under the applicable law.

18. Precedence. These ST&C shall take precedence over any inconsistent or contradictory provisions contained in, or referenced by, any proposal, contract, purchase order, requisition, notice to proceed, or similar or like document.

19. Severability. If any of these ST&C are finally determined to be invalid or unenforceable in whole or in part, the remaining provisions shall remain in full force and effect and be binding upon the parties. The parties agree to reform these ST&C to replace any such invalid or unenforceable provision with a valid and enforceable provision that comes as close as possible to the intention of the stricken provision.

20. Survival. These ST&C shall survive the completion of PRIME AE's services on the project and the suspension or termination of services for any cause.

21. Governing Law. The laws of the state in which the project is located shall govern the validity and interpretation of this Agreement. Client agrees that any legal action or proceeding arising out of the provision of services by PRIME AE pursuant to the proposal or any modification thereof may be submitted by PRIME AE to a State Court in the State of Maryland or State of Ohio without regard to the choice of law provision. Client irrevocably consents to jurisdiction of (and waives dispute of venue in) the aforementioned venues.

22. Assignment. No assignments by Client of this Agreement or of any monies due or to become due hereunder shall be binding upon PRIME AE until PRIME AE's written consent thereto is obtained. Any assignment by Client to anyone of any right under this Agreement without the written consent of PRIME AE shall be null and void and without effect.

PRIME AE's insurance coverage set forth in section 6 of these Standard Conditions.

Re: Privilege of the Floor Town Board - PureSky Energy Inc. and Oak Hill Solar Update

Dear William Wenzell and the Town Board,

On June 22, 2023 PureSky Energy, Inc provided a letter to the Town of Duanesburg which stated that in December 2022 there was a racking failure at Oak Hill Solar 2, LLC and photovoltaic panels were on the ground. PureSky also state that in April or May 2023 they hired a third party structural engineer to evaluate the cause of the failure and to develop a remediation plan.

Between February 2023 and September 14, 2023 the Schenectady County Clerk recorded more than \$2,000,000 in mechanics liens against the landowner Richard Murray.

In April 2023 Lynne Bruning provided the town with a drone photo of the project sites that showed eleven rows of panels collapsed on the ground. It appears that approximately 2,000 photovoltaic panels, many of them broken, were on the ground and exposed to the elements since December 2022. Control gear, tracking motors, and batteries for the motors appear to be buried under the collapsed panels.

Between July 2023 and September 14, 2023 the County Clerk recorded legal action between Greencells USA Inc. v. Deer Valley O & M LLC index number 2023-1298 and Greencells USA Inc. v. Heliovaas LLC index number 2023-1222. Litigation in Schenectady County Court may be on going.

On September 6, 2023 PureSky issued a press release announcing Jared Donald as the Chief Executive Officer and Nicole LeBlanc as the Chief Operating Officer. The press release identified PureSky's owners to be Mike Renyolds Managing Director, Americas of Palisade Infrastructure and Brooks Kaufman, Managing Director of Fiera Infrastructure.

It appears that remediation at Oak Hill Solar 2, LLC has not begun. Essentially little to no work has occurred at Oak Hill Solar 1, LLC and Oak Hill Solar 2, LLC since December 2022.

- Has a town board member visited the project sites?
- Does the town have free and open access to the project sites?
- What is the current condition of the project sites?
- How many photovoltaic panels remain on the ground?
- How many of the photovoltaic panels are broken?
- How many control gear, tracking motors and batteries for the motors are buried under the panels?
- When does PureSky intend to remediate the project site?
- Will PureSky provide the Town with ground water and soil tests in the area of the collapsed panels and associated equipment to confirm if the soil and ground water is contaminated?
- When does PureSky intend to begin construction to complete Oak Hill Solar 1, LLC and Oak Hill Solar 2, LLC?
- Has the town had any communication with Jared Donald, Nicole LeBlanc, Mike Renyolds or Mike Kaufman?

Broken equipment that is known to contain hazardous materials that is left on the ground and exposed to the elements for more than nine months may contaminate ground water and soil. Environmental damage from PureSky's project may create a liability for the town and taxpayers. The project may diminish neighboring property values.

The project's neighbors request that the project site is remediated, the project owner's provide ground water and soil testing, and that the project is brought into compliance. If this cannot be accomplished then the projects should be decommissioned.

Thank you for your time and consideration.

Respectfully,
Lynne Bruning

PureSky Energy Announces Changes to Leadership Team: Jared Donald as CEO and Nicole LeBlanc as COO

September 6, 2023

Denver, CO, September 6, 2023 – PureSky Energy, a leading developer, owner and operator of US community solar and storage projects, has appointed Jared Donald as Chief Executive Officer (CEO) and Nicole LeBlanc as Chief Operating Officer (COO). This follows the recent acquisition of PureSky Energy (formerly Amp US) by a consortium comprising funds managed by Palisade Infrastructure Group ("Palisade Infrastructure") and Fiera Infrastructure Inc. ("Fiera Infrastructure").

Jared has been a founding member of the business since 2016 and has successfully led over 500MW_{DC} of community solar and energy storage projects in North America. He brings a wealth of experience and proven leadership track record in the solar sector, including as the former EVP, Head of US at Amp Global. With a deep passion for environmental conservation and a commitment to delivering affordable and accessible renewable energy solutions, Jared is poised to lead PureSky Energy in its next phase of growth.

Nicole, the newly appointed COO, was an early member of the company since its founding in 2016 and has driven the successful completion of all PureSky Energy projects to date. She has an extensive background across various roles in the solar industry, including in sales, project development, community solar manager, M&A and asset management. Her expertise will be instrumental as PureSky Energy continues to scale its operations and enhance its community solar and battery storage initiatives.

"We are thrilled to announce Jared as CEO and Nicole as COO. Their combined expertise and passion for renewable energy will continue to play a pivotal role in driving PureSky Energy's growth and impact," said Mike Reynolds, Managing Director, Americas of Palisade Infrastructure. "We are excited to formalize the leadership team of PureSky Energy," said Brooks Kaufman, Managing Director of Fiera Infrastructure. "Jared and Nicole's proven development and operational capabilities will be instrumental in driving the company's growth and furthering its mission of providing clean energy solutions."
